

# The 1-Year HOPE DE1 Mentor Education 2024

The HAL Academy © All Rights Reserved Randi Green

*It all begins with our abilities to interact with the other-dimensional energies and perception as part of our DE1 Activation Process. We must learn what is the content of our own minds and energy fields, since the exploration of the other-dimensional energies is done via the higher order senses and faculties of mind and energy, as well as the ability to navigate, perceive, interpret, and comprehend what we sense, see, and encounter, via our energy system.*

The HOPE DE1 Mentor Education teaches how to assist others in the New DE1 Reality Challenges and the DE1 Activation Processes.

The HOPE DE1 Mentor Education is Open for all with interest in the DE1 Activation and the how-to mentor other humans to activate their DE1 Higher Order Senses and Abilities.

## **How to Prepare for this Education?**

1. Naturally, there are many ways into this work. However, I do recommend some familiarity with the HAL Progression Sciences for the personal angle to the Higher Order Transition Work. It must be so, for the simple reason that the context of how to address the other worlds, and their races, must rest on some sort of common ground, from where I can share the next level of information in this work.
2. You can begin with the New Reality Sciences for free, and then do the HAL Progression Science Courses before, or while doing the HOPE DE1 Mentor Education. The HAL Progression Science Courses are important in the deeper understanding of the work, we are here to do, and thus the how-to keep our grounds in the work with the higher order energies and activation processes.
3. A new approach to what healing means, and what the energy work is, is required too. If we go around this with the 4<sup>th</sup> cycle spiritual system ideas and learned knowledge, we are in for a reality shock, as well as a profound reality check. We cannot project our understanding of the spiritual worlds, and old versions of what a human is, onto the other-dimensional worlds and races living there and their operations here, using the human body as part of their projects. We must understand this agenda, and not what we want it to be to protect our comfort zone.
4. New skillsets must be learned, and new concepts developed of what energy and consciousness are, and how reality dynamics works.

## **Duration of the Education**

The HOPE DE1 Mentor Education is done over 7 months, from March until October in 2024. Find dates and more details on the next page.

## The Course Material

New text and podcast material will be generated to the HOPE DE1 Mentor Education in 2024.

The text material will be explained in the required number of podcasts, uploaded on Vimeo. You use this material to prepare before the monthly group meetup.

*The Text & Explanatory Podcast Material will work within these themes*

1. What does it Mean to Activate into Density 1 (DE1) Energies & Dynamics?
2. What are the Requirements to be able to do so?
3. What are the DE1 Activation Processes & Implications?
4. What should we pay Attention to, and be aware of?
5. Dealing with the reality changes, outer and inner reality dynamics, because of the DE1 Activation.

*The Course Material provides the needed background information. However, it is expected that the Basic 4D Energy Work Course has been completed.*

*It is a good idea to do all the Advanced Clearing Work Courses, since they provide the advanced how to clear residual effects of the other-dimensional energies.*

We meet up via Skype in a private group call, at 8pm Danish time, in total 7 times yearly from March until October (no meetup in July). *Dates are provided on the next page.* Remember to check for DST.

- The monthly meetup has the duration of 1-2½ hour, all depending on the activity of the group.
- The quality of the group call depends on the group entirely, since it is up to the group members to present thoughts and ideas on the information provided in the class material. Not just in the form of questions, but in the form of thoughts derived from working with the material.
