

HAL Energy System Reading

BY RANDI GREEN

About the Reading

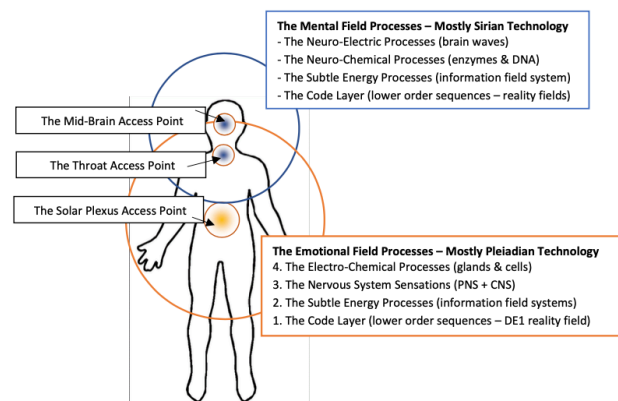

I TUNE INTO THE 3 LOWER SUBTLE ENERGETIC LAYERS OF YOUR ENERGY SYSTEM

The HAL Academy – The DE1 Reconfiguration of the Lower Fields

The lower order energy system is a composition of the mental and emotional field processes, experienced via inner sensations and thought processes, transformed into constructions defining self, others, and reality.

The Lower Order Energy System & Epigenetic Processes

Two forms of energetic processes:

The lower order energy system can be worked with via three access points, from which we can access the different processes:

1. The Mid-Brain Access Point gives access to the mental field and its four layered processes, in combination with the Throat and Solar Plexus Access Points.
2. The Throat Access Point gives access to the “expression mechanism” of our psyche – it is our voice and the place where the inner and outer human processes can be expressed.
3. The Solar Plexus Access Point gives access to the “sensation mechanism” of our psyche – it is the process unit of the emotional and mental field kinetic processes.

Consequently, when we work with the emotional field, we work with its energetic levels, the constructed energy patterns, and the material these are made of.

We can divide these into 4 sections of work, from the outside and in. Number 4 is the outer bio-energetic processes and number 1 is the inner core fields – here in more detail than on the illustration above:

4. The electrochemical processes generated by the organs, glands, and cells.
3. The nervous system sensations (subtle electrochemical) generated by the PNS.
2. The even more subtle psychic-energetic information levels of which there are 9 (8).
1. The code layer in the lower order sequences connected to the same levels in the reality field.

How I do This

By expanding my field, I gain the ability to read embedded timelines within your energy system to bring clarity on the work, you can do.

Here are some insights on how this works:

1. **Heightened Timeline Awareness:** Begin by tuning into the subtle energetic layers within your energy fields, I am able to perceive potential timelines as threads, layers, or even symbolic imagery that represent different potential paths.
2. **Energetic Mapping:** I will then do my best to describe this to you on paper, using some of the existing images from the Transition Sciences or older to give an illustration of the written content. If your energy system is willing and open for investigation, I will give attention to the present energy flow, extend my awareness to past and future timelines embedded in the energy system. I will attempt to map out different points in these timelines, connecting them to potential past life events, karmic patterns, or future potentialities. The energetic map or illustration (if one is possible to make*) will then help you locate where timeline intersections occur and how they influence the present moment.

You will then be able to develop a sensitivity to these layers will help you recognise which timelines are active and influencing current experiences, and which ones are dormant or emerging.

WHAT YOU CAN DO WITH THE READING

Multidimensional Inner Work Tuning:

Use your own psychic-energetic abilities to differentiate between the vibrational frequencies of these embedded timelines.

You might visualise or sense shifts in colour, density, or texture, indicating different timelines or vibrational choices, you have done or are about to do.

You could experiment with meditative exercises, tuning into higher dimensions that reveal the broader landscape of timelines you are investigating.

Energetic Integration Techniques:

As timelines reveal themselves, you can refine your clearing work by consciously assisting in the integration or release of certain energies.

Incorporate techniques where you psychic-energetically align with possible higher vibrational timelines or clear unresolved lower vibrational ones. This process could involve deeper chakra work, light codes activation, or energetic restructuring to facilitate the shift.

HAL Energy System Interpretation:

When using the HAL Energy System Reading, view it as a tool of how to understand that these timelines are not only personal but tied to collective evolution (I talk about this in the Template Sciences).

Although it provides the first steps, your psychic-energetic abilities will allow you to "read between the lines" of what the system outlines, sensing deeper patterns or anomalies beyond its scope.

This deeper investigation can reveal how individual timelines intersect with larger collective shifts, offering insights on how to navigate personal evolution while contributing to humanity's progression.

By applying these ideas, you can further expand your inner work, using psychic-energetic insights to navigate, clear, and align with optimal timelines for yourself and by that refine your transition work into higher order energies.

THE BASIC KNOWLEDGE

Rather than being solely tied to a linear timeline, we are engaging with multiple dimensions and timelines simultaneously. The energies and experiences we are integrating now may come from ancient civilisations, parallel realities, or future potentialities, all of which influence our current journey.

This multi-timeline activation can create a profound sense of purpose and function, but it can also bring challenges. As we navigate these intersecting energies, we may experience shifts in our awareness, energetic downloads, and even disruptions in our physical or emotional states. We are essentially balancing multiple timelines that inform our present path, giving us access to higher order information and a deeper understanding of our place in the larger scheme of things.

Understanding this, we can see that our experiences are not confined to a single, fixed path. Instead, the activation process involves an unfolding of various timelines and energies, each contributing to the growth and evolution of the individual and the collective.

Those who are currently activating may feel a strong pull to explore these timelines, uncovering aspects of who we think we are, that are both personal and universal, revealing deeper truths about humanity's multidimensional nature.

By becoming aware of the multiple timelines embedded within our energy systems, we gain the ability to consciously navigate our evolution, choosing which energies to align with, integrate, or release, ultimately shaping our individual and collective future.

Via a photo of you, I can tune into the subtle energetic layers within your 3 lower energy fields, and from there I am able to look at the energy system build-up and timelines that represent different potential paths.

You will then easier be able to develop a sensitivity to these layers will help you recognise which timelines are active and influencing current experiences, and which ones are dormant or emerging.

The HAL Academy – The DE1 Reconfiguration of the Lower Fields

The foundation of the work is to use the techniques developed in the psychotherapeutic work to work with the socio-sexual-psychological dynamics to do the processes leading to the psychic-energetic balance needed to do the DE1 transition into the new penta-chromosome configuration needed for the 5th cycle.

As explained in the AIT Advanced Clearing Work Material, we must clear out the old prohibiting technologies, the OWO Cubes, energetic parasites, and elementals in the racial grids to be able to release and transform the emotional field.

Program Cube in 4D or 5D

Via the sciences behind the different levels and energies of the emotional field, the work gets more advanced but also in some sense clearer. The levels are to be worked with and transformed through the opposition dynamics of inner-outer interactive potentials.

We do that by playing the OWO Reality Programs, aka the Paths of Liberation, from where we on the days with the Rotundum number 20 can release the content of the rings of the bio-fields, emotional field and mental fields.

Remember from the HAL Advanced Class 2 how the Rotumdum works, and from the Advanced Work with the Rotundum Course, that the bio-field is connected to the day inside the base program (bio-rhythms), the emotional field to the monthly number added to the number of the day (Dec. 8th + 12 = 20) and the mental field is connected to the dynamics of the year (2022 = 6) added to the 8-20+6 giving a 8-20-8 sequence determining which faction that is possible to pull into our perception field and then do the releasing trials, which free us of their programs (and destroys the seals connecting us to them).

THE THREE LOWER FIELDS FEMALE

The Female Emotional Field Configuration – 9 Layers

1. Bio-energetic processes – unconscious electrochemical processes in organs, glands, and cells.
2. Subconscious level; fantasies – dreams (technology).
3. Collective consciousness field; archetypes – entities – collective base program energies.
4. Lower astral material; the residual levels of the past and past lives.
5. Parasitic level; TEGs and their subsequent fueling of the energy patterns.
6. Astral entities and elementals (DE2 fragments) transform into the “Buddhi Level” (Middel Domain).
7. The world corners; huge entities with DE2 genetics bits from the destroyed terrestrial DE1 network.
8. The visitor areas under the inserted regressed De2 and their technologies (colonizers).
9. Infected De2 network attached to the artificial 4th dimension programs (mainly semi-android races).

Below is an illustration of the concentric circles the 9 subtle psychic-energetic information levels create in the female emotional field:

Below is an illustration of the concentric circles the 21 subtle psychic-energetic information levels create in the female lower fields:

1. The Bio-field (Yellow) has 7 rings that matches the first 7 layers of the emotional field.
2. The Emotional Field (Orange) has 9 layers.
3. The Mental Field (Blue) has 5 rings of which 5 are merged with the bio-field and the emotional field. However, 2 of the rings stretches above both the emotional and bio-fields.
