*Max 16 students.*

*The class material gives the background information needed to understand this course.*

*It is expected that the Basic 4D Energy Work Course has been completed. Get it here:*

## **Background for the HAL Progression Work Group Class Material**

We live in a world where the reality field reset dynamics are manifested into different collapses of known functional societal, economic and environmental systems, overall changes in the human neurobiology, with break-down of psychological processes and loss of self-adjustment mechanisms, where the general approach to solve the challenges at hand either focus on a joint effort to solve the issues, or choose to riot and segregate in earlier consciousness states of warring humanoid gene codes and disrupted rules of engagement.

To assist our energy system in its recalibration to the Outer Domain DE1 Reconfiguration, we need to exemplify what we learn in our studies of the higher order sciences. The original energy system configurations are interactively connected to the reality field technologies and architecture, meaning that as we develop, so will the original programs develop similarly.

As we modify our energy system, clear the distorted gene codes, and clear the connection points to dysfunctional holographic code streams, connected to earlier failed or destroyed progression cycles in our system and beyond, our original configuration demands “proof” of our ability to work with energy and consciousness again.

*The Outer Domains have always been the last stage to master what we were and change it into what we could become. In the outer domain, we can do the turn-around, shift position in reality configuration and then shed off the old configuration. In the denser energies, it is possible to rebuild our energy system, progress it in a slower pace to match the requirements of the worlds, we want to go to.*

## The 2 Monthly Skype Group Calls at 8pm Danish time on Saturdays

We meet up over Skype in a private group call twice a month, from September to November 2023 at 8pm Danish time. Here we discuss the material from a theoretical, and if possible, practical point of view. I begin the group call with a lecture on topics relevant for a progression of the material. *Remember to check for DST.*

- Each meetup has the duration of 1-2½ hour, all depending on the activity of the group.
- The quality of the group calls depends on the group entirely, since it is up to the group members to present thoughts and ideas on the information provided in the class material. Not just in the form of questions, but in the form of thoughts derived from working with the material.
- *To ensure the highest energy in the call, it will not be possible to discuss personal issues or relate to experiences with other people. Talking about other people invite whatever they hold to the meetup, due to the power of the group dynamics, and talking about personal issues will open your field and merge it into the group.*
