*The HAL Academy text and video material is built up in a step-ladder manner to develop the ability to discern between different states of perception, different reality concepts and developmental programs. The information, and how we work with it to change our reality and what it means to be human, supports the work with our processes of regaining our higher order consciousness structure.*

We live in a world where the reality field reset dynamics are manifested into different collapses of known functional societal, economic and environmental systems, overall changes in the human neurobiology, with break-down of psychological processes and loss of self-adjustment mechanisms, where the general approach to solve the challenges at hand either focus on a joint effort to solve the issues, or choose to riot and segregate in earlier consciousness states of warring humanoid gene codes and disrupted rules of engagement.

As we modify our energy system, clear the distorted gene codes, and clear the connection points to dysfunctional holographic code streams, connected to earlier failed or destroyed progression cycles in our system and beyond, our original configuration demands “proof” of our ability to work with energy and consciousness again.

*The HAL Academy Online Courses are part of that transition process.*
