

The HAL Academy – The Inserted Alien Technology Course 2

In this online course, we begin the advanced work with the inserted alien technologies and the holographic overlay energy system attached to the original transformative energy system. Whether these technologies and their genetics are the result of wrongful use of energy, or have been inserted by the Colonizing races, the work remains the same. These genetics and technologies must be removed and evaporated for us to be able to return to the original DE1 sections of our reality field.

Prior to this course, the HAL Transition Science Courses must have been completed, since they provide the background for this course. The course also builds upon earlier material, although taking it to the next level.

The LPRF1 Reality Fields – the Foundation of the Artificial Energy Systems

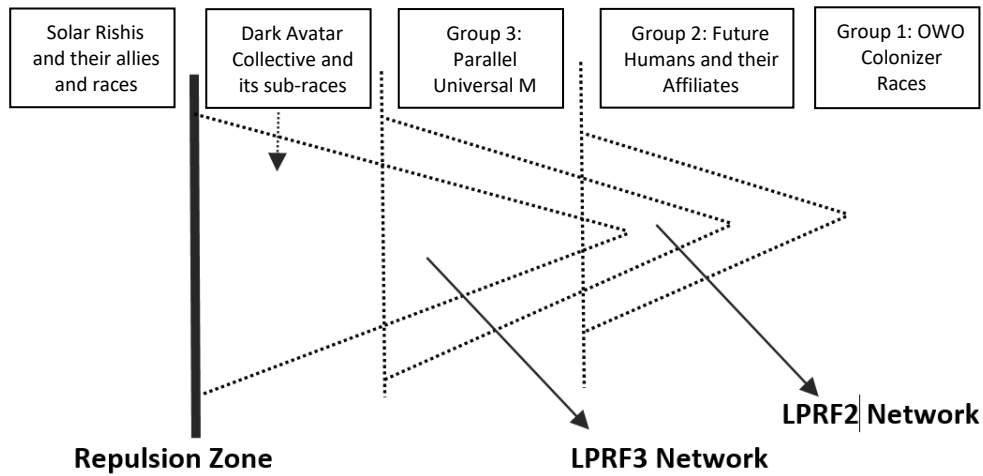

Horizontal Movement (relooping and reality programs to keep us stuck)

Our reality is surrounded by concentric circles of distorted energy. And then we have our outer world as well. From the earlier HAL material:

The HAL Academy – The Inserted Alien Technology Course 2

The gridworks and networks in the new reality fields after the Resetting of our entire system is completed. Of our interest are human groups 1-3.

The illustration shows how gridworks turn into networks. A gridwork is the central racial field of a LPRF holding the encoded energy units as well as the plan for that reality field as it was laid into the gridworks by the Progenitors. Only when the genetics link up to a gridwork are they able to progress.

The concentric domains as they unfold into our reality in density settings, where each domain covers several sub-fields, as explained in the HAL Books.

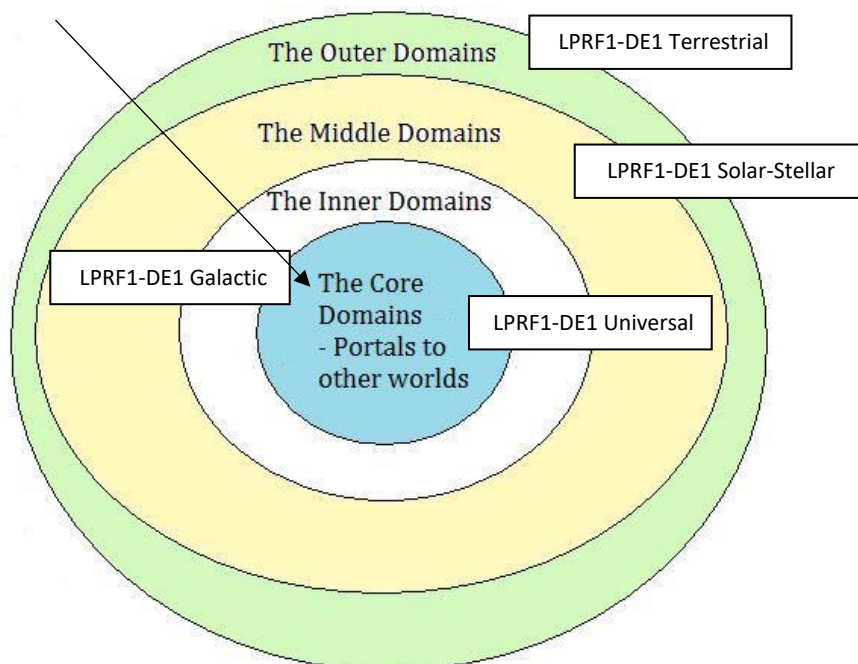

The Domains

The Core and Inner Domains permeate the Middle and Outer Domains as radiation and vibration.

All Creation unfolds from within and outwardly; not from the outside and in.

The Three Principles are the basis of the Core Domains.

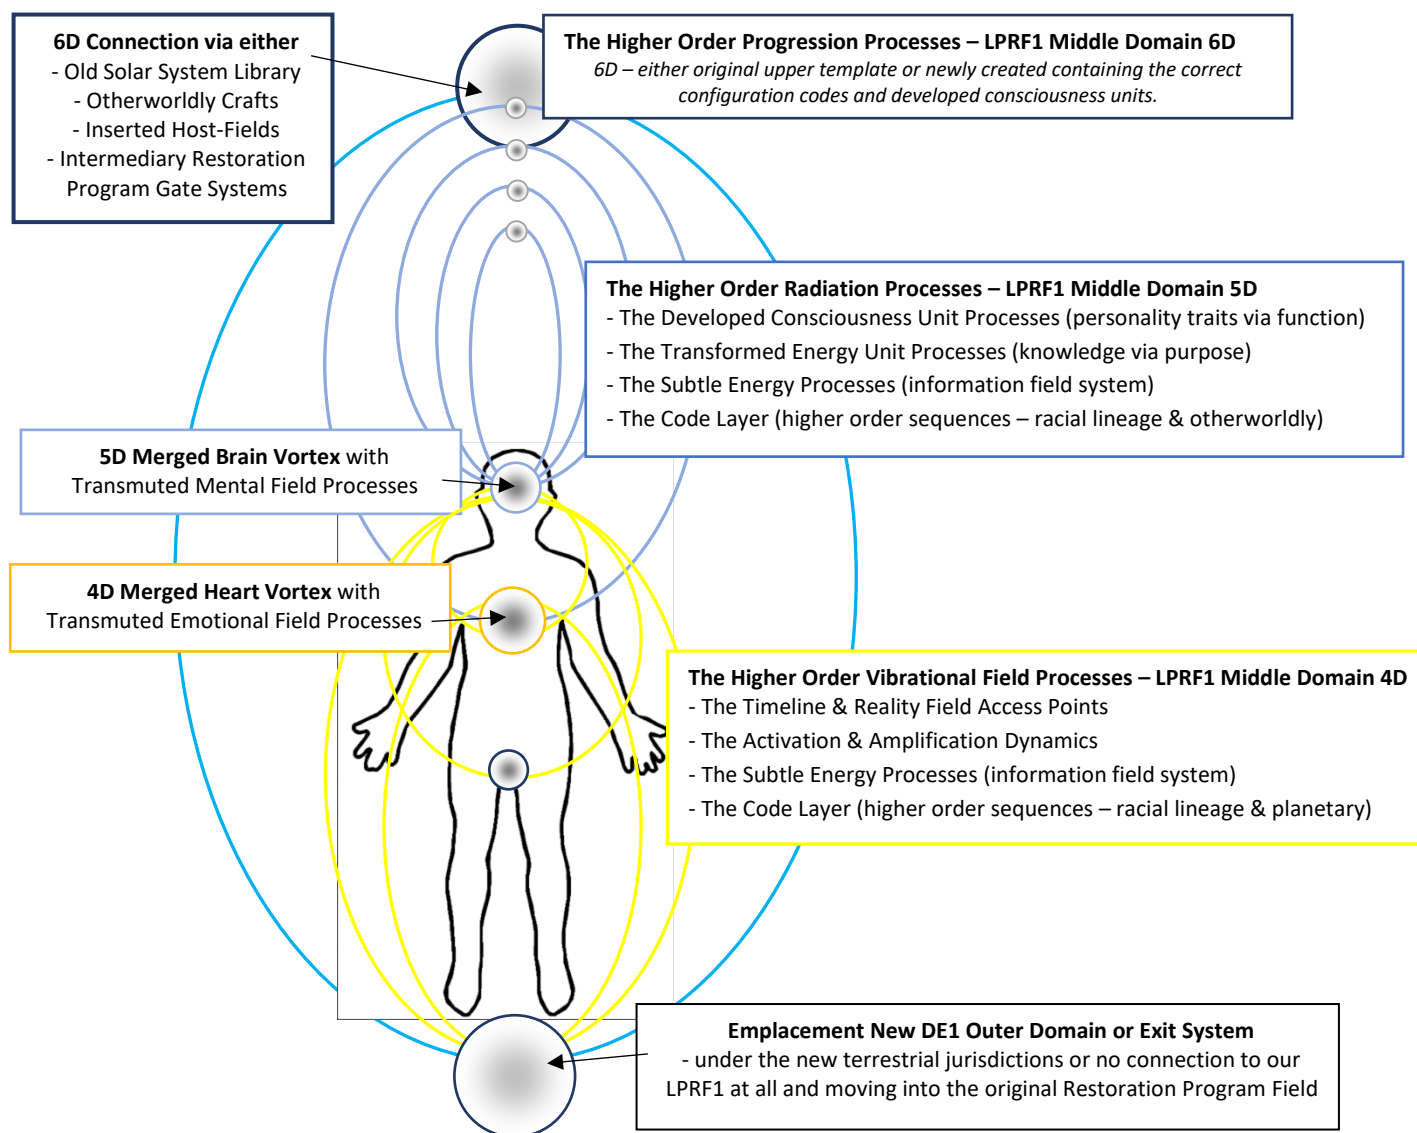

The Inner Domains are the areas of the True Worlds.

The HAL Academy – The Inserted Alien Technology Course 2

The Higher Order Transformative Energy System in the LPRF1-DE1-OD

The higher order energy system can be viewed as multilayered composition of several energy fields with different access points, energetic orientation and processes of consciousness and energy. It expands from the personal experiences into the reality fields of similar forms of energy fields and consciousness processes.

The higher order energy system is thus a composition of the processes of raw consciousness and energy units to be developed and already transformed consciousness units (the CUs) and energy units. The goal of these processes is to develop new forms of existence.

The Merged Lower Order Brain & Higher Order Radiation Processes

Transmuted Neuro-Electric Processes (biological and otherworldly) into expressing the functional CUs adapted to ego structure.
Transmuted Neuro-Chemical Processes (biological and otherworldly) into expressing the lower and higher order knowledge.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

The Merged Lower Order Emotional & Higher Order Vibration Processes

Transmuted Electro-Chemical Processes (biological and otherworldly) into incorporating timeline & reality field dynamics.
Transmuted Nervous System Sensations (biological and otherworldly) into incorporating activation & amplification dynamics.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

The HAL Academy – The Inserted Alien Technology Course 2

The Individual Challenges in the IAT Work (or AIT; Alien Inserted Technology)

The individual challenges involve the work with the lower order fields and how we can clear these to get to the point, where we can rebuild our higher order constitution. As long as we are trotting along in our human form, exercising our human will, mind and emotions, we will not get to the higher order levels in us. The higher order levels of us contain the consciousness genetics, the original template and higher order energy system. These parts have been hidden from us. We are to figure out how to reconnect to the true parts of us and then put in the needed work to activate them.

To get to where we can recreate all that we are, we must solve the puzzle of the in-the-way lower order fields, i.e., the electromagnetic controlled overlay of the bio-field and DNA, along with the emotional field and mental field that hold programming to fit us into the base program (aka the ISP). The lower order fields are inserted to block the higher order energy system from connecting to our organic bio-field and allow our own code systems to unfold, leading us back to the density energies we also are able to process and integrate.

The Human Ego

The ego structure is a biproduct of the dynamics of the three lower fields, i.e. the electromagnetic mental field, the emotional field and the interfered version of the bio-field. The three lower order fields were inserted to rule out our higher order knowledge and awareness capacities that could get activated, when and if, the original energy system, template and consciousness units work appropriately with the organic vessel and bio-field.

Thus, our innate knowledge of how to do timeline and configuration work, and how to progress using energy and consciousness to do so, are unable to interconnect to and transform the bio-field, because of the lower fields and their blocking of the original bio-field, keeping it focused on the electromagnetic energies.

As long as we play the game of being a base program human - having our energetic processing abilities and our organic vessel occupied within the human world - our energy system will adjust to the energies, we utilize. Upholding the normal human ways and sticking to the base program means to continuously utilize the ELF-frequency spectrum energies. Hence, we cannot sit on both chairs, that is being a normal human within the base program and doing the progression work, since these are two distinctively different kinds of energy utilization.

The higher order energy systems and the organic vessel with its three lower fields:

Higher Order Energy System – the True Human; Progressive

Consciousness units

Code sheets, configuration and template

6D Energy system fitting the original solar system

Lower Order Fields – the False Human; Regressive

Mind-field to be altered into the 5th cycle brain field

Emotional field to be altered into the 4th cycle heart field

Bio-frequency field to be altered into the 4-5th cycle bio-density field

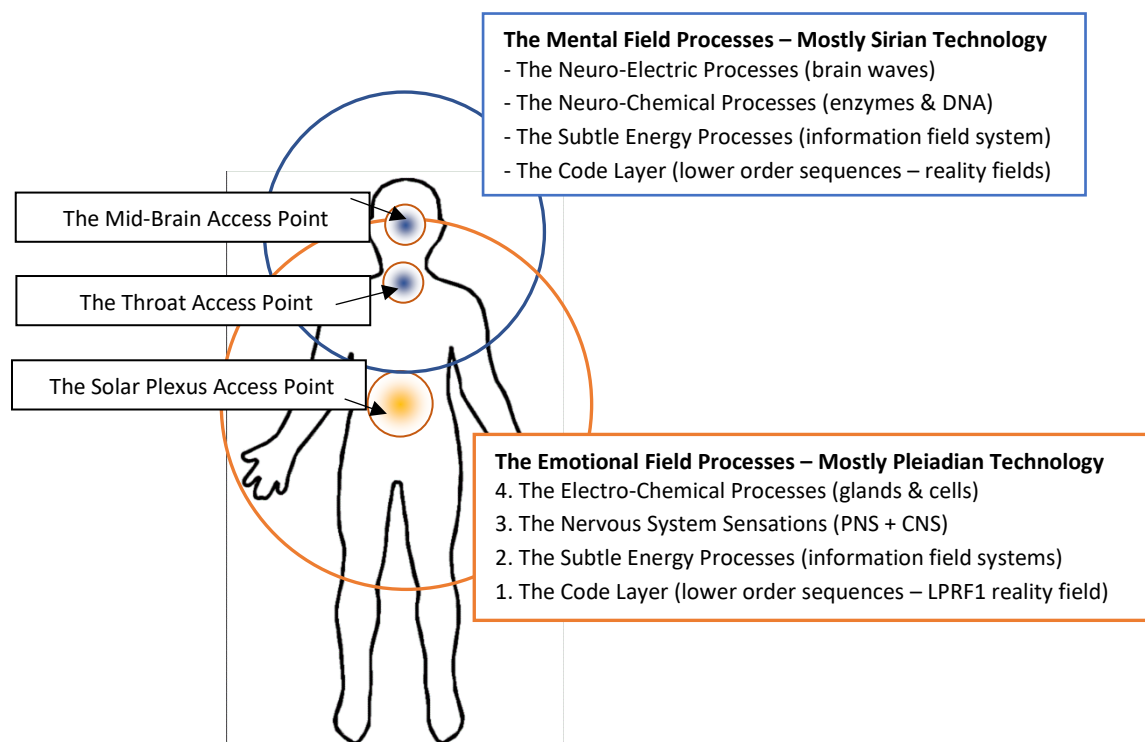

Organic form – Molecular

Bio-frequency matter is to be cleared and transformed by our activation of the higher order energy system, and then returned into density units, so far as it is possible, following the original DE1 OD settings.

The HAL Academy – The Inserted Alien Technology Course 2

The Clearing Work with the Access Points of the Bio-Energetic Level into the EMOF

Two forms of energetic processes:

The lower order energy system can be worked with via three access points, from which we can access the different processes:

1. The Mid-Brain Access Point gives access to the mental field and its four layered processes, in combination with the Throat and Solar Plexus Access Points.
2. The Throat Access Point gives access to the “expression mechanism” of our psyche – it is our voice and the place where the inner and outer human processes can be expressed.
3. The Solar Plexus Access Point gives access to the “sensation mechanism” of our psyche – it is the process unit of the emotional and mental field kinetic processes.

Consequently, when we work with the emotional field, we work with its energetic levels, the constructed energy patterns and the material these are made of. We can divide these into 4 sections of work, from the outside and in. Number 4 is the outer bio-energetic processes and number 1 is the inner core fields – here in more detail than on the illustration above:

4. The electrochemical processes generated by the organs, glands and cells.
3. The nervous system sensations (subtle electrochemical) generated by the PNS.
2. The even more subtle psychic-energetic information levels of which there are 9 (8).
1. The code layer in the lower order sequences connected to the same levels in the reality field.

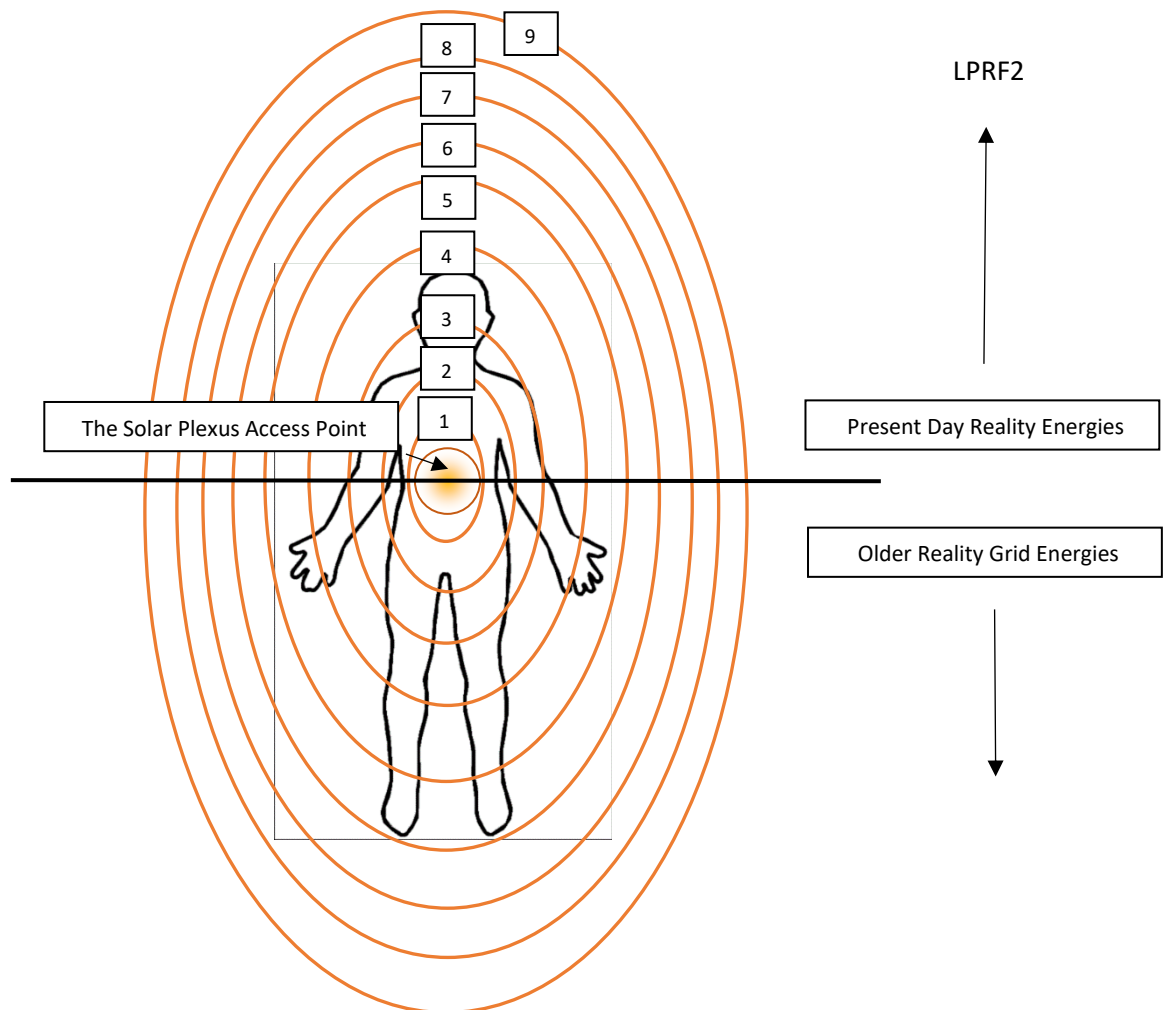

Via the sciences behind the different levels and energies of the emotional field, the work gets more advanced but also in some sense clearer. The levels are to be worked with and transformed through the opposition dynamics of inner-outer interactive potentials.

The HAL Academy – The Inserted Alien Technology Course 2

The first group of humans (group 1) hold energies connected to OWO Colonizer LPRF2-artificial 4D and 5D technologies and distortion energies, that are left in our system. These cover around 20% of the old depleted racial grids. This transformation work must be done on all 9 levels:

1. Bio-energetic processes – unconscious electrochemical processes in organs, glands and cells.
2. Subconscious level; fantasies – dreams (technology).
3. Collective consciousness field; archetypes – entities – collective base program energies.
4. Lower astral material; the residual levels of the past and past lives.
5. Parasitic level; TEGs and their subsequent fueling of the energy patterns.
6. Astral entities and elementals (LPRF2 fragments) transform into the “Buddhi Level” (Middel Domain).
7. The world corners; huge entities with LPRF2 genetics bits from the destroyed terrestrial LPRF1 network.
8. The visitor areas under the inserted regressed LPRF2s and their technologies (Colonizers).
9. Infected LPRF2 network attached to the artificial 4th dimension programs (mainly semi-android races).

Below is an illustration of the 9 subtle psychic-energetic information levels in the group 1 emotional field:

The HAL Academy – The Inserted Alien Technology Course 2

The second and third group of humans (group 2-3) hold energies from various alien intervention groups from either the future human races or from the parallel universal matrix, or from the Ra Collective (the human-humanoid-avian races of the Martian future colonies). This transformation work must be done on all selected levels:

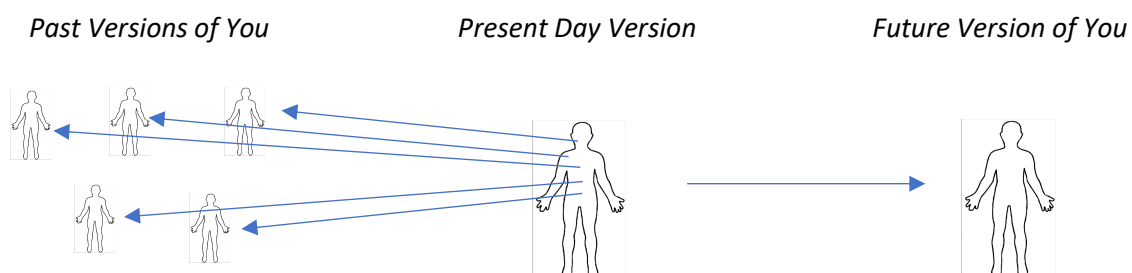

All humans on the planet, that want to do the transition must do the bio-energetic clearing processes and get control of the unconscious electrochemical processes in organs, glands and cells.

However, the other 9 levels of the EMOF will not be in play for all – some have been genetically modified and thus no longer connect to the old LPRF2-artificial D4 OWO fields and thus do not hold the following layers:

1. Subconscious level; fantasies – dreams (technology).
2. Collective consciousness field; archetypes – entities – collective base program energies.
3. Lower astral material; the residual levels of the past and past lives.
4. Parasitic level; TEGs and their subsequent fueling of the energy patterns.
5. Astral entities and elementals (LPRF2 fragments) transform into the “Buddhi Level” (Middel Domain).
6. The world corners; huge entities with LPRF2 genetics bits from the destroyed terrestrial LPRF1 network.
7. The visitor areas under the inserted regressed LPRF2s and their technologies (Colonizers).
8. Infected LPRF2 network attached to the artificial 4th dimension programs (mainly semi-android races).

What they hold of inserted alien technology and their subsequent alien DNA (altered extraterrestrial genetics altered into being able to latch on to the human DNA) will be shown in the bio-energetic clearing processes and get control of the unconscious electrochemical processes in organs, glands and cells. It will also be shown in the visions, or memories of past lives, defining the current emotional field and its content.

If there are no past lives, then that will be shown too, for example if it turns out that the body is a clone and not of the OWO first group type.

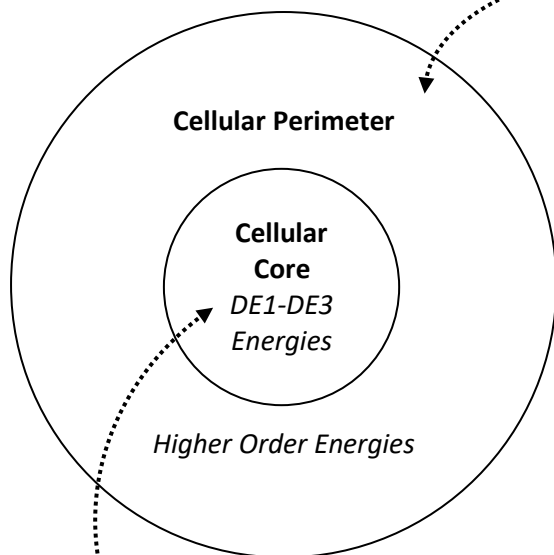

Therefore....

- 1) The main goal of this work is to clear the regressed LPRF2 and infected LPRF3 inserted genetics, technologies and distortion fields from the three lower energy fields...
- 2) To get there all groups must work with the psychic-energetic transformation processes of the three lower fields in the lower order energy system....clones hold these as well.
- 3) Everything is interconnected....from the reality field energies to the energies of our higher and lower energy systems, and into the smallest unit found in the cellular construction.
- 4) When one layer is worked with, the other intersecting energy fields are also worked with.

The HAL Academy – The Inserted Alien Technology Course 2

The Reconstruction of a Cell (LPRF1)

The perimeter of emotional energies holds at least 9 levels of distortion to be worked with, all depending on IAT:

1. Unconscious electrochemical processes.
2. Subconscious level; fantasies – dreams.
3. Collective consciousness field; archetypes – entities.
4. Lower astral material; the residual levels of the past.
5. Parasitic level; TEGs and subsequent energy patterns.
6. Astral entities and elementals (LPRF2 fragments).
7. The world corners; huge entities with LPRF2 traits.
8. The visitor areas under the regressed LPRF2s.
9. LPRF2 network attached to the artificial 4D programs.

The bio-field behind the cell is made of the destroyed LPRF1 network, with its now infected, contaminated and distorted energies and genetic fragments (the holographic blueprint of the cell) and on top of that is added the astral and mental fields composed of distorted energies from the inserted LPRF2 and LPRF3 networks.

The goal is to generate enough higher vibrational energy within the perimeter, in the clearing work, to allow for Density 1 cellular core configuration enabling the human cell to generate the blueprint of chromosome 5, and the first bits needed to alter the cellular core into DE3.

This chromosome, and its DNA building blocks and sequences, allows for the processing of density energies, and by that the ability to connect to the host fields of the different groups, inserted to withstand the DE1 Resetting of the planetary core that began in week 10 – 2022.

The Next Steps in the Advanced Clearing Work

Having transformed the emotional field and to some degree the mental field, and by that having generated a higher amount of density energies, we can begin to clear out what connects us to the OWO harvesting programs, the 5D I-cubes and similar inserted technologies.

Here we add to the level of understanding, that the lower order fields are connected to adjacent artificial 4D and 5D reality fields, and contain regressed genetics of a more complex variety and only if we activate them is it possible to clear them out. And that poses a danger, of course, given that we will get in contact with whatever they are tied to, their contributors and factions, the artificial timelines and control technologies. But it has to be done to get rid of our linkup to the regressed 4D and 5D and the-there-present organic or holographic humanoids having their balls and chains on us.

Not only are we to do the Advanced Clearing Work, to get out of the harvesting programs under the intra-systemic lineages and their regressed allies, we have to take the responsibility of clearing out the inserted genetics along with shutting down the timelines and technologies they are fueling.

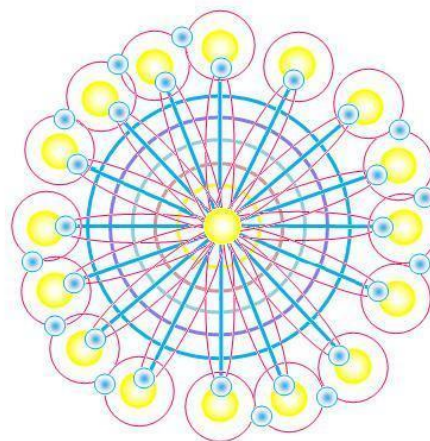

The HAL Academy – The Inserted Alien Technology Course 2

The Purpose of the Timeline Work

The purpose of the timeline work on the different timelines is to evaporate the attached regressed (4D), the inverted (3rd cycle) and the reverted (5D timeline infected and polarized) genetics from our energy system and template. As we work our way through the timelines, accessed via the 3 fields, our perception of the dimensional worlds around us changes accordingly. What we perceive and access depends on which timeline we are working on. Our energy system, and its modified or original genetics, determine our abilities to access which timelines we can clear out and interact with.

A reality field holds:

- **Multiple Outer Worlds (Outer Domain Network)**
(the larger outer circles)
- **Middle Domain Worlds**
(the next set of circles)
- **Inner Domain Worlds**
(the smaller circles)
- **Core Domain Worlds**
(the inner circles)
- **Multiple Timelines**
(the straight lines)
- **A Core Plasma Crystals and Construction Technologies**

Our Earth is Resetting into the original density reality configuration as shown above.

Shift of Perspective

The DE1 terrestrial, DE2 stellar, DE3 galactic and DE4 cosmic levels are holographically engineered to appear to us this way. The empty space perception is a remnant of the timeline event and it will change in the future.

As we shift into the higher order progressive awareness

1. The terrestrial perception turns into *a reality field* understanding (outer domain)
2. The solar-stellar level turns into *a systemic* understanding (middle domain).
3. The galactic turns into *a holographic-technological* understanding (inner domain).
4. The cosmic level turns into *a core facility* understanding (core domain).

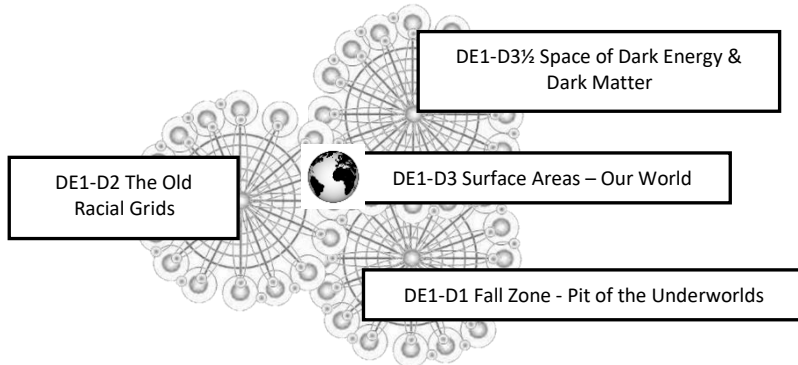

Timelines in Overview

- Timelines are an intrinsic part of the holographic reality grids.
- Timelines determine the perception content, we perceive.
- Timelines are streams of encoded energy.
- Timelines unfold or stream the genetic content to us, when we enter a timeline.
- Timelines direct consciousness genetic possibilities to unfold in a certain way.
- Timelines are rays of possibilities, leading to probabilities, when used correctly.
- Old timelines have already played out the encoded possibility and probability content, and are now residual memory streams within the holographic reality grids.
- Timelines must be cleared in order to release remnant consciousness genetics from the outdated and artificial sections of the holographic reality grids.

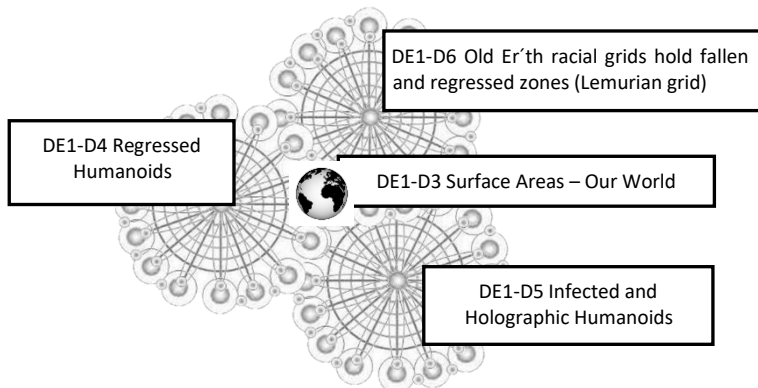

The HAL Academy – The Inserted Alien Technology Course 2

The inserted DE1 OWO adjacent worlds hold semi-organic matter, organic lifeforms and several timelines. They are connected to our reality.

Reality Perception and Template Clearing Work in DE1-D1 to DE1-D3 Zones

Reality and Template Clearing Work in the Artificial DE1-D4 to DE1-D6 Zones

Using Self-Scan and Code-Repair in the Work with the IAT

Step 1: The ability to self-scan and code-repair the energy fields to clear out code systems of a lower order

- I. What is perceived from a normal awareness level?
- II. What is perceived from a double awareness level?
- III. What is the energetic information behind from a higher order awareness level?

Step 2: The ability to achieve energetic transformation in the two energy systems

Firstly, answer what you think it means to achieve energetic transformation of the two energy systems.....

- I. From a normal awareness level?
- II. From a double awareness level?
- III. From a higher order awareness level?

Step 3: The ability to achieve a higher vibrational-radiation states in the brain and heart fields

Firstly, answer what you think it means to have a higher vibrational or radiation states in the two fields.....

- I. From a normal awareness level?
- II. From a double awareness level?
- III. From a higher order awareness level?
