

The HAL Academy – The ACW and the AIT-TEGs Course 3

We continue the work with the inserted alien technologies, the holographic overlay energy system and the alien genetics and TEGs. Whether the inserted alien technologies and their genetics are the result of wrongful use of energy, or have been inserted by the Colonizing races, the work remains the same. These genetics and technologies must be removed and evaporated for us to be able to return to the original DE1 sections of our reality field.

Prior to this course, the HAL Transition Science Courses must have been completed, since they provide the background for this course. The course also builds upon earlier material, although taking it to the next level.

The DE1-LPRF1 Reality Fields – the Foundation of the Artificial Energy Systems – Now Resetting

Our reality is surrounded by concentric circles of distorted energy. And then we have our outer world as well. From the earlier HAL material:

The HAL Academy – The ACW and the AIT-TEGs Course 3

The gridworks and networks in the new reality fields after the Resetting of our entire system is completed. Of our interest are human groups 1-3.

The illustration shows how gridworks turn into networks. A gridwork is the central racial field of a LPRF holding the encoded energy units as well as the plan for that reality field as it was laid into the gridworks by the Progenitors. Only when the genetics link up to a gridwork are they able to progress.

The concentric domains as they unfold into our reality in density settings, where each domain covers several sub-fields, as explained in the HAL Books.

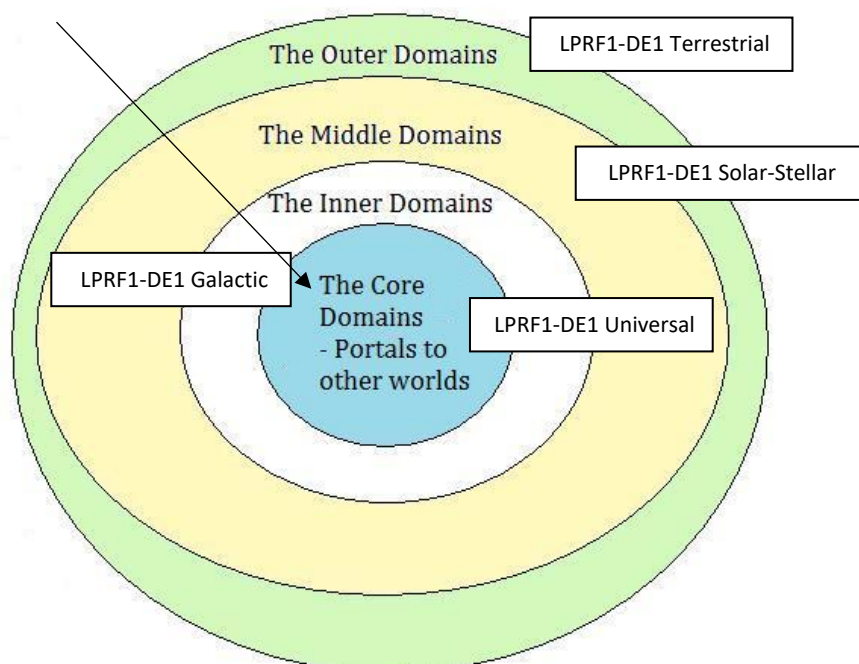

The Domains

The Core and Inner Domains permeate the Middle and Outer Domains as radiation and vibration.

All Creation unfolds from within and outwardly; not from the outside and in.

The Three Principles are the basis of the Core Domains.

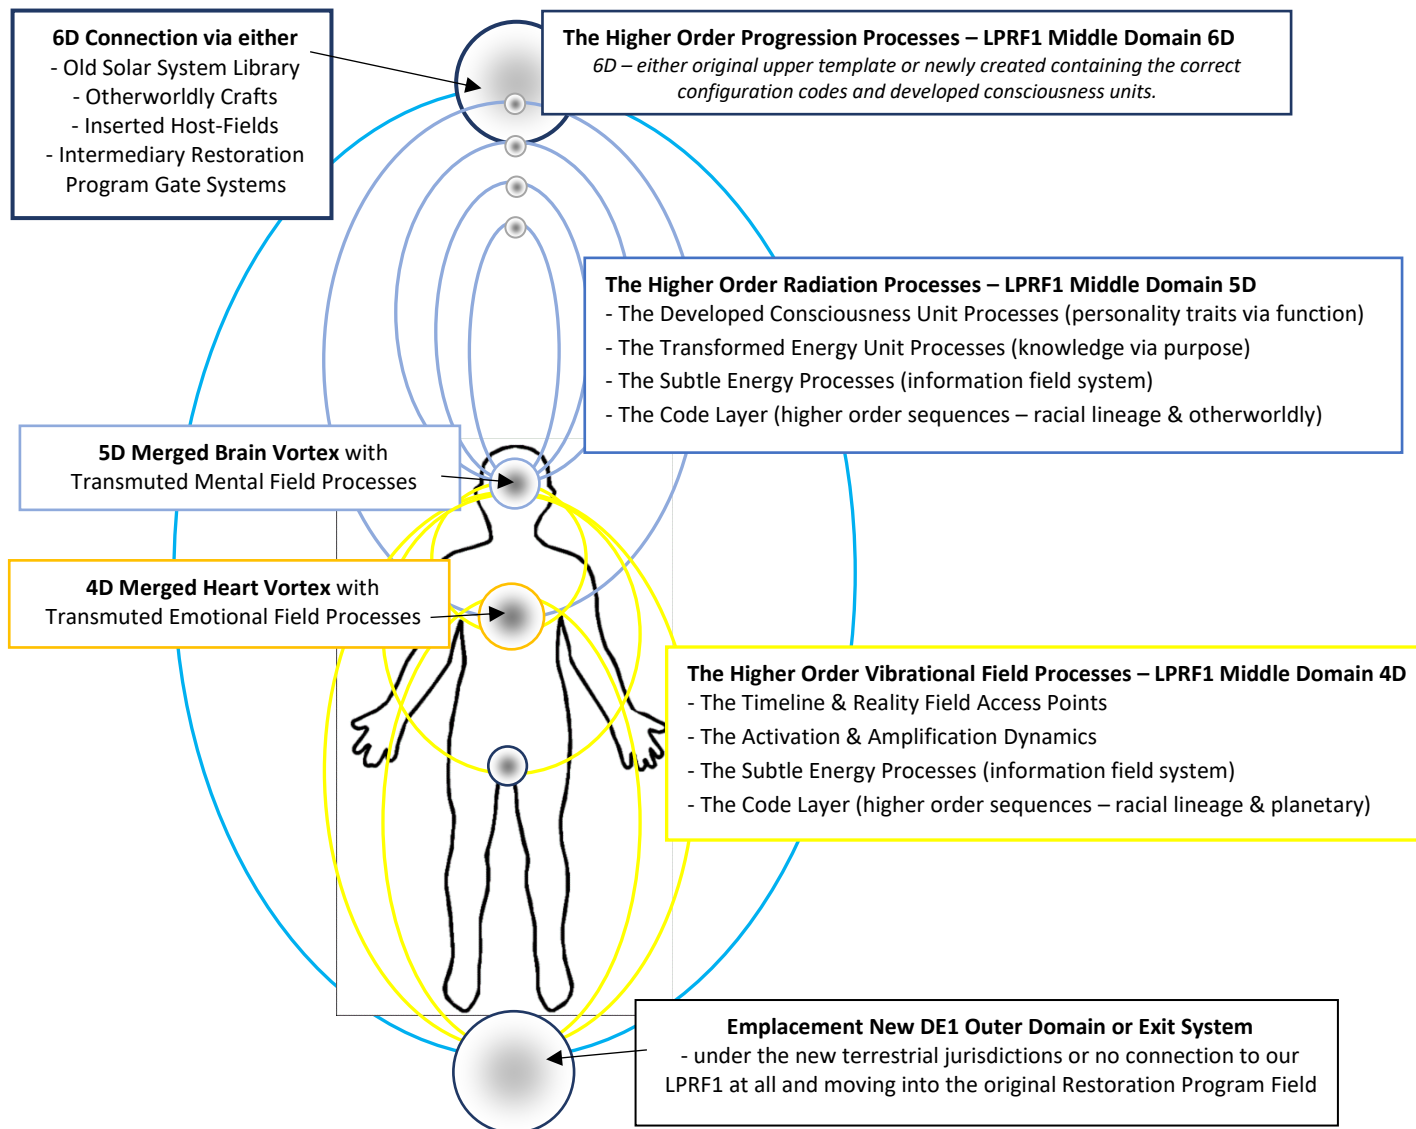

The Inner Domains are the areas of the True Worlds.

The Higher Order Transformative Energy System in the LPRF1-DE1-OD

The higher order energy system can be viewed as multilayered composition of several energy fields with different access points, energetic orientation and processes of consciousness and energy. It expands from the personal experiences into the reality fields of similar forms of energy fields and consciousness processes.

The higher order energy system is thus a composition of the processes of raw consciousness and energy units to be developed and already transmuted consciousness units (the CUs) and energy units. The goal of these processes is to develop new forms of existence.

The Merged Lower Order Brain & Higher Order Radiation Processes

Transmuted Neuro-Electric Processes (biological and otherworldly) into expressing the functional CUs adapted to ego structure.
Transmuted Neuro-Chemical Processes (biological and otherworldly) into expressing the lower and higher order knowledge.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

The Merged Lower Order Emotional & Higher Order Vibration Processes

Transmuted Electro-Chemical Processes (biological and otherworldly) into incorporating timeline & reality field dynamics.
Transmuted Nervous System Sensations (biological and otherworldly) into incorporating activation & amplification dynamics.
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

The Individual Challenges in the Work

The individual challenges involve the work with the lower order fields and how we can clear these to get to the point, where we can rebuild our higher order constitution. As long as we are trotting along in our human form, exercising our human will, mind and emotions, we will not get to the higher order levels in us. The higher order levels of us contain the consciousness genetics, the original template and higher order energy system. These parts have been hidden from us. We are to figure out how to reconnect to the true parts of us and then put in the needed work to activate them.

To get to where we can recreate all that we are, we must solve the puzzle of the in-the-way lower order fields, i.e., the electromagnetic controlled overlay of the bio-field and DNA, along with the emotional field and mental field that hold programming to fit us into the base program (aka the ISP). The lower order fields are inserted to block the higher order energy system from connecting to our organic bio-field and allow our own code systems to unfold, leading us back to the density energies we also are able to process and integrate.

The higher order energy systems and the organic vessel with its three lower fields:

Higher Order Energy System – the True Human; Progressive

Consciousness units

Code sheets, configuration and template

6D Energy system fitting the original solar system

Lower Order Fields – the False Human; Regressive

Mind-field to be altered into the 5th cycle brain field

Emotional field to be altered into the 4th cycle heart field

Bio-frequency field to be altered into the 4-5th cycle bio-density field

Organic form – Molecular

Bio-frequency matter is to be cleared and transformed by our activation of the higher order energy system, and then returned into density units, so far as it is possible, following the original DE1 OD settings.

What humans hold of inserted alien technology and their subsequent alien DNA (altered extraterrestrial genetics altered into being able to latch on to the human DNA) will be shown in the bio-energetic clearing processes and get control of the unconscious electrochemical processes in organs, glands and cells. It will also be shown in the visions, or memories of past lives, defining the current three fields and their content.

Therefore....

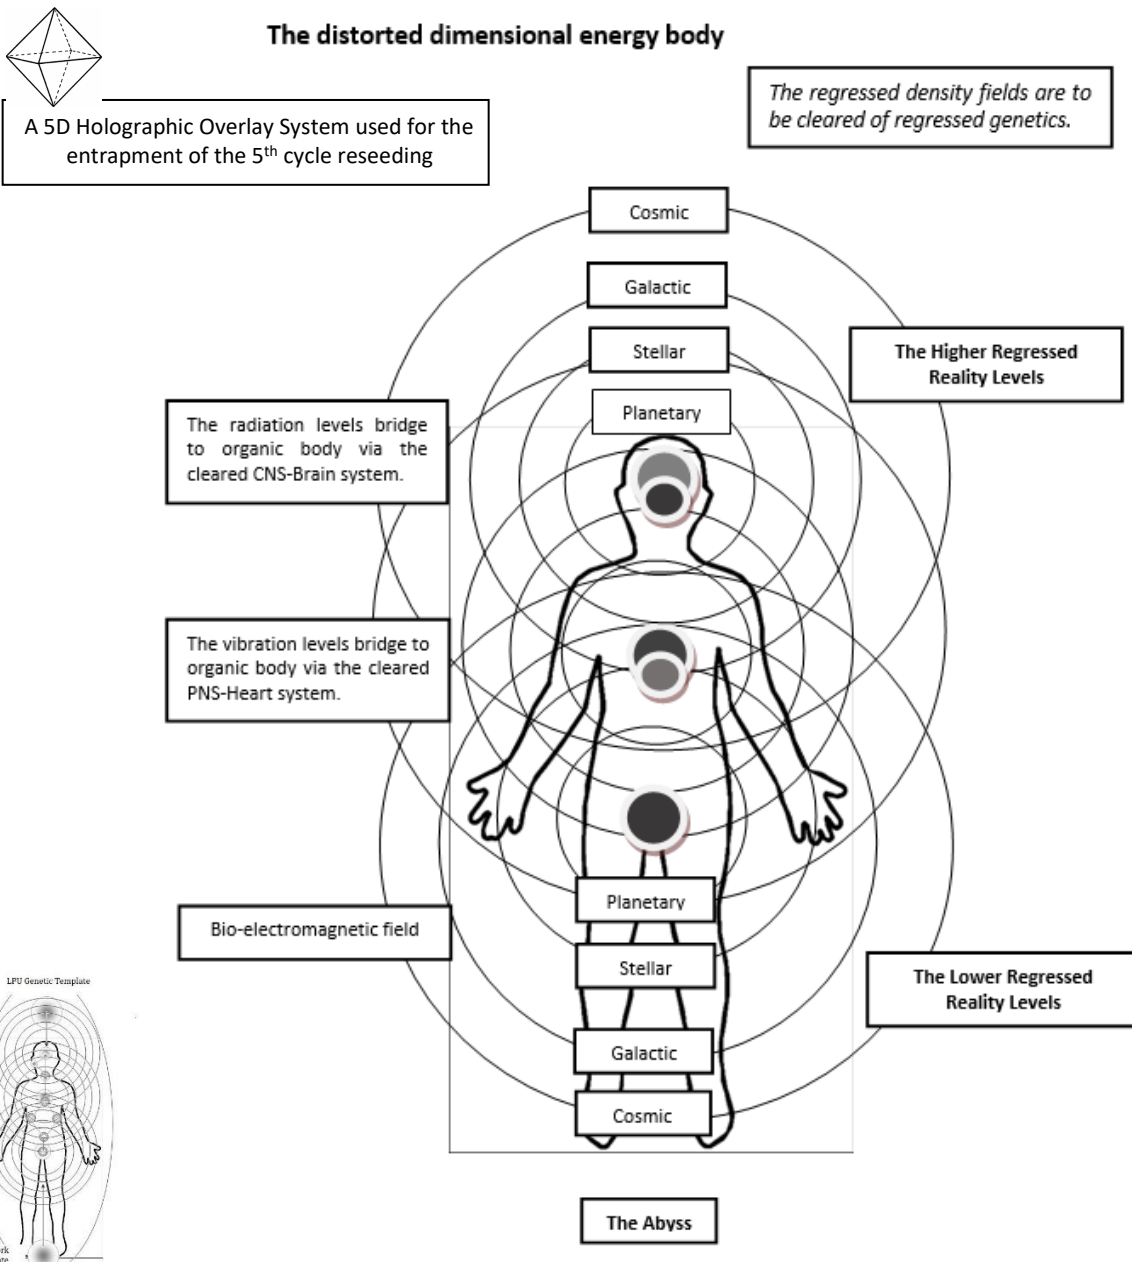

- 1) The main goal of this work is to clear the regressed LPRF2 and infected LPRF3 inserted genetics, technologies and distortion fields from the three lower energy fields...
- 2) To get there all groups must work with the psychic-energetic transformation processes of the three lower fields in the lower order energy system....clones hold these as well.
- 3) Everything is interconnected....from the reality field energies to the energies of our higher and lower energy systems, and into the smallest unit found in the cellular construction.
- 4) When one layer is worked with, the other intersecting energy fields are also worked with.

The HAL Academy – The ACW and the AIT-TEGs Course 3

Understanding the Inserted Alien Technologies and Their Purpose

We begin with the understanding of the manipulated transformative energy system. After the hijacking the Colonizers inserted three artificial energy producing quadrants into the original transformative energy system (the TES) along with the 4D holographic overlay energy system to fuel and administer the regressed genetics under diverse artificial programs. Furthermore, an extra attachment was engineered to keep us stuck inside the quarantined reality followed up by population control programs and false reality programs and along with these, an interacting interface system we now know as the three lower fields.

These alterations created the false personality matrix, we call our ego structure, which is highly controlled by the different false reality programs. As we trotted along in the loops of the artificial frequency world, the Colonizers utilized our template and transformative energy system for their purposes, dividing the Harvest amongst them, as also explained in *the Souls of Humanity* and *Terralogy*. Thus, the main purpose of the Colonizers was to adapt the original transformative energy system into being able to regenerate their flawed and regressed genetics. To repair their genetics, not ours.

The Clearing Work with the Access Points

Two forms of energetic processes:

The lower order energy system can be worked with via three access points, from which we can access the different processes:

1. The Mid-Brain Access Point gives access to the mental field and its four layered processes, in combination with the Throat and Solar Plexus Access Points.
2. The Throat Access Point gives access to the “expression mechanism” of our psyche – it is our voice and the place where the inner and outer human processes can be expressed.
3. The Solar Plexus Access Point gives access to the “sensation mechanism” of our psyche – it is the process unit of the emotional and mental field kinetic processes.

Consequently, when we work with the emotional field, we work with its energetic levels, the constructed energy patterns and the material these are made of. We can divide these into 4 sections of work, from the outside and in. Number 4 is the outer bio-energetic processes and number 1 is the inner core fields – here in more detail than on the illustration above:

4. The electrochemical processes generated by the organs, glands and cells.
3. The nervous system sensations (subtle electrochemical) generated by the PNS.
2. The even more subtle psychic-energetic information levels of which there are 9 (8).
1. The code layer in the lower order sequences connected to the same levels in the reality field.

Via the sciences behind the different levels and energies of the emotional field, the work gets more advanced but also in some sense clearer. The levels are to be worked with and transformed through the opposition dynamics of inner-outer interactive potentials.

Getting Rid of the Artificial 4D & 5D Holographic Overlay Energy Systems

The most important step is to get rid of the 4D & 5D Holographic Overlay Energy Systems with the inserted regressed genetics, generating the holographic overlay vortices, from which the remaining OWO LPRF2 and LPRF3 Races can harness our consciousness potentials and energy transformation processes to do their own reogenesis.

The Holographic Overlay Energy System consists of three layers within each vortex; i.e., the base is built with elemental energies, connecting the alien planetary network. This generates the foundation of the bio-field. Then the distorted vibrational (astral) energies are added, connecting into the emotional field, creating the perimeter of the vortex and finally the mental layer is added to the vortex in the middle. In the same manner as we saw it with the cell. The Holographic Overlay Energy Systems are part of the artificial realities, connected to our system, and the prohibiting technologies.

The template reading gives the first layer of the memories that are to be processed and integrated to move further into the activation process.

The Upper Template with Auric Fields

The auric fields, i.e., the energy currents, have to process the correct type of quantum variables to activate the upper template and release the genetic content, kept on specific levels of the upper template, cf. the illustration above.

The Holographic Overlay Energy System holds Regressed Genetics

- The mental layer holds regressed genetics from the LPRF3-5D reptoid-hybrid races.
- The emotional-astral-4D layer holds regressed genetics from the LPRF2-4D avian-hybrid races.
- The adapted bio-field layer holds genetics from the regressed insectoid-hybrid races.
- The organic DNA hold genetics from the original human races, which are reengineered by the hijackers to respond to the inserted holographic overlay energy systems.

The HAL Academy – The ACW and the AIT-TEGs Course 3

The inserted alien genetics are replicated genetics, mostly from insectoid, avian or reptoid humanoid races. Via the inserted genetics running our energy system, the humanoids have access to generate what they need of new code systems, develop timelines and generate clones of us or whatever. Or just harvest the genetics, when they are ripe for trade.¹

The Holographic Overlay Vortices

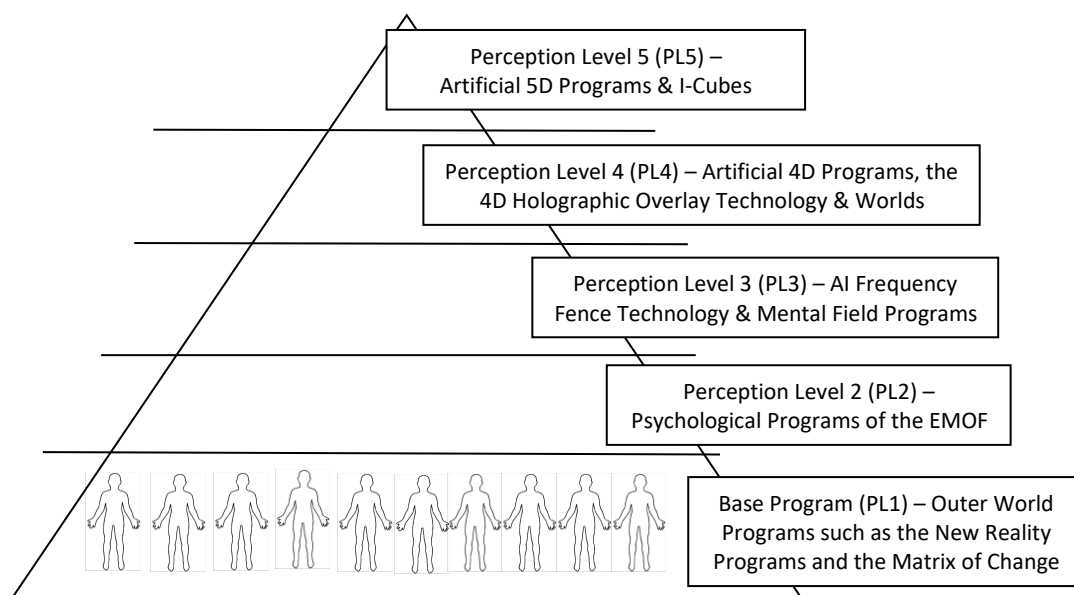

As long as the holographic overlay vortices are running with electrochemical energies (4D-astral-emotions) in the perimeter and bioelectric frequencies (5D-mental-brain wave processes) in the core, the holographic overlay vortices will automatically connect to the population control programs. The transformative energy system cannot function correctly because of this and the original vortices of the transformative energy system are prevented from reactivating its correct core flows and energy circulation and transformative processes.

A Holographic Overlay Vortex (CBA – Central Binding Area – Access Point)

The inserted alien genetics link the holographic overlay vortices to the artificial 4D-5D reality programs. The programs run on bioelectric energies and they are controlling the processes of the human mind, cognitive schemata and emotional reaction patterns aside from the energetic parasites which are a side effect of this technology.

The Population Control Programs (the PCPs)

¹ Most of this is happening during night time, when our body is out of function. Then our energy system gets transferred into the 4D facilities. All of this will become clear, once the sight is back. The back tracking – we follow the trail of the inserted genetics - is one of the techniques we need to learn to get rid of our clones there.

The Energetic Parasites

The inserted alien genetics are replicated genetics, mostly from insectoid, avian or reptoid humanoid races. Via the inserted genetics running our energy system, the humanoids have access to generate what they need of new code systems, develop timelines and generate clones of us or whatever. Or just harvest the genetics, when they are ripe for trade.²

An unfortunate side effect of the inserted regressed genetics is that they generate lots of energetic parasites in our fields. It is so, because the inserted genetics are replicas and impure. Thus, over the course of the month via the joint time share of our organic vessel and energy system, as the regressed races run their merry-go-round of different energies to activate their selection of genetics, we get polluted with dissimilar energetic parasites.

These energetic parasites nest in our mental and emotional fields in the middle of the energy patterns, we have created in this lifetime and previous lifetimes. From their nests in the emotional and mental fields, they can control our choices, what we think is the correct thing to do, all we perceive, all that feels important to us and what we want in life. Including the humans, we attract and events that come our way, which often are the cause-and-effect of the “parasitic calls” and other factional control system. The psychological and energetic control, the energetic parasites have on us, is immense.

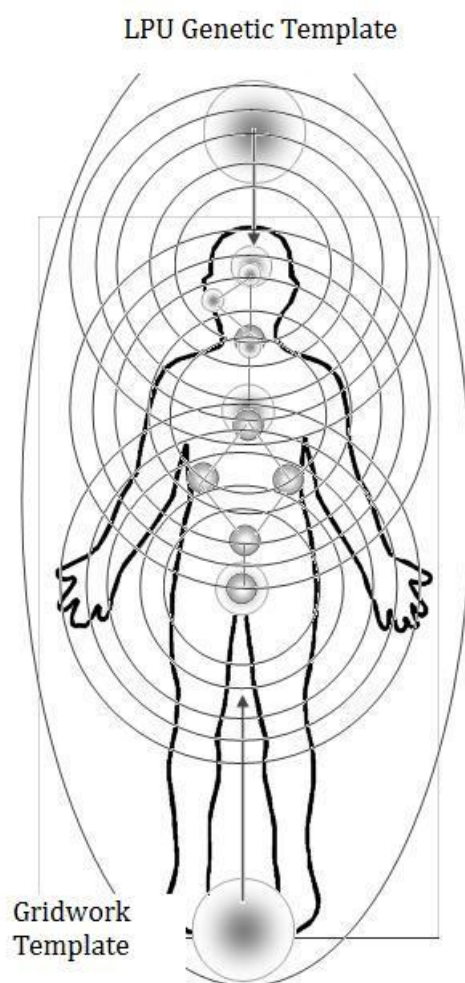

When we clear out the energetic parasites, quite a lot of what we thought were important to us vanish with them, along with a scale of irrational and non-constructive emotional responses.³

² Most of this is happening during night time, when our body is out of function. Then our energy system gets transferred into the 4D facilities. All of this will become clear, once the sight is back. The back tracking – we follow the trail of the inserted genetics - is one of the techniques we need to learn to get rid of our clones there.

³ How to remove 4D energetic parasites and clearing of our energy patterns, are shown in the Basic Energy Work Class. The removal of the organic-holographic 4th and 5th dimensional entities are in the Advanced Energy Work Class. How to produce higher order energies are in the HAL Advanced Classes 1-2 and the Future Human Project Courses 1-4.
