

# The HAL Academy – The Template Sciences Course 3

*In this course, we wrap up the sciences behind the template, the perception levels and how we work with these to rebuild the middle domain DE2 light body. We begin with the mental field and its transformational processes into the original mind-field and from there into the energy configuration that enables the activation of the upper template stored genetics. We learn the highest function of the Principles, the Rules and the Laws as the tools to rebuild the MD light body and how the Principles, the Rules and the Laws apply to the generation of life force.*

The HAL Transition Sciences, the Advanced Clearing Work Courses and the Template Science Courses 1-2 must have been completed, since they provide the background for this series.

## The DE1-LPRF1 Reality Fields – the Foundation of the Artificial Energy Systems – Now Resetting

*Our reality is surrounded by concentric circles of distorted energy. And then we have our outer world as well. From the earlier HAL material:*

# The HAL Academy – The Template Sciences Course 3

The concentric domains as they unfold into our reality in density settings, where each domain covers several sub-fields, as explained in the HAL Books.

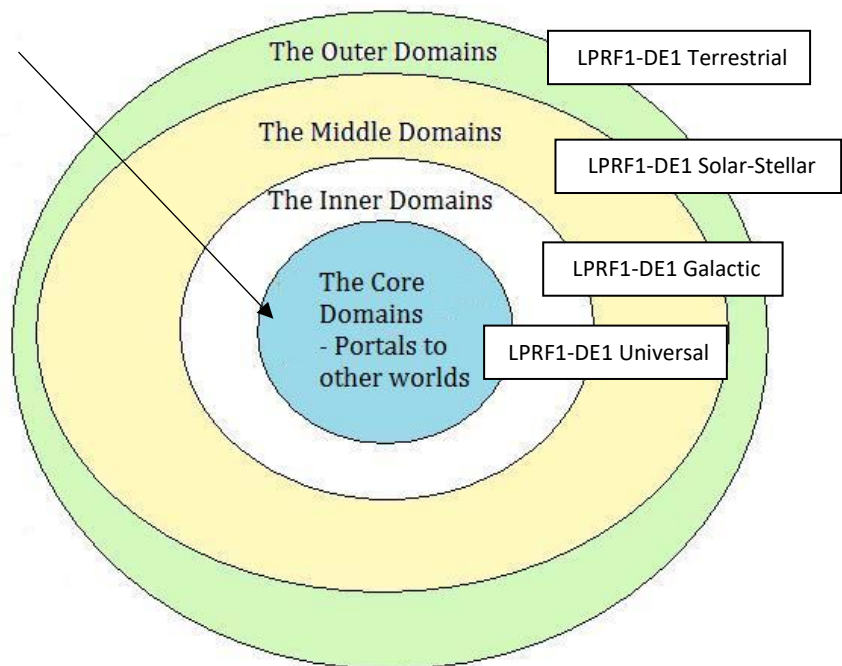

## The Domains

The Core and Inner Domains permeate the Middle and Outer Domains as radiation and vibration.

All Creation unfolds from within and outwardly; not from the outside and in.

The Three Principles are the basis of the Core Domains.

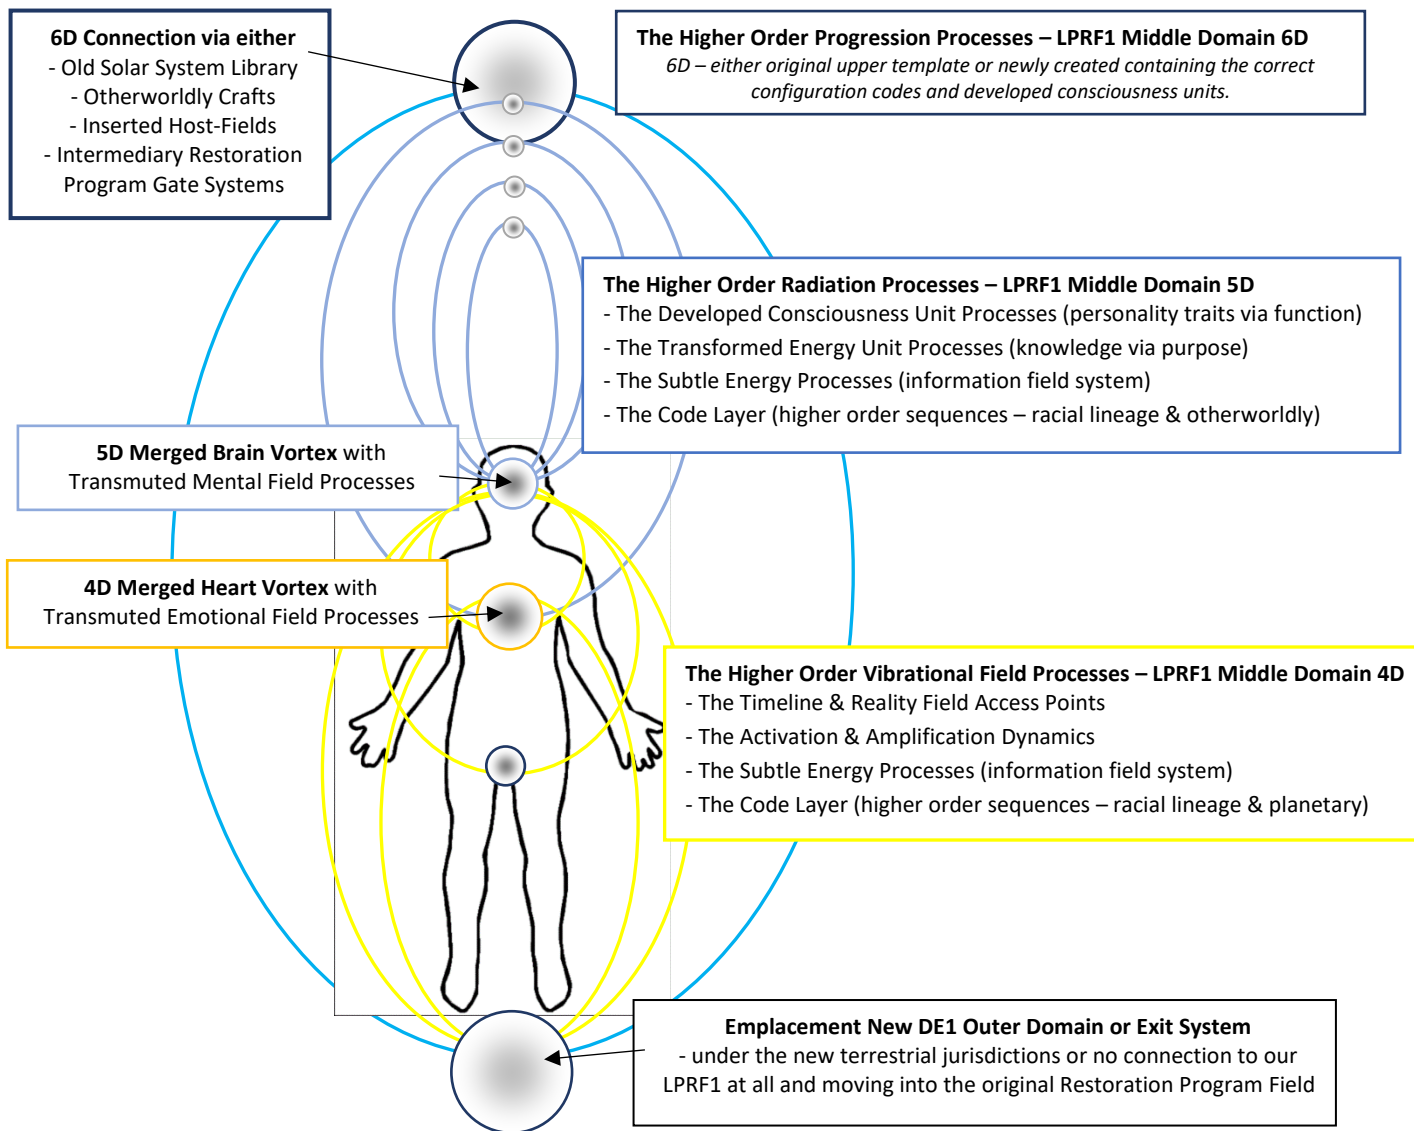

The Inner Domains are the areas of the True Worlds.

## The Higher Order Transformative Energy System in the LPRF1-DE1-OD

*The higher order energy system can be viewed as multilayered composition of several energy fields with different access points, energetic orientation and processes of consciousness and energy. It expands from the personal experiences into the reality fields of similar forms of energy fields and consciousness processes.*

*The higher order energy system is thus a composition of the processes of raw consciousness and energy units to be developed and already transformed consciousness units (the CUs) and energy units. The goal of these processes is to develop new forms of existence.*

### **The Merged Lower Order Brain & Higher Order Radiation Processes**

Transmuted Neuro-Electric Processes (biological and otherworldly) into expressing the functional CUs adapted to ego structure.  
Transmuted Neuro-Chemical Processes (biological and otherworldly) into expressing the lower and higher order knowledge.  
Transmuted Subtle Energy Processes (biological and otherworldly) into expressing the dual information systems.  
Transmuted Code Layer (lower order planetary and higher order otherworldly) into expressing the dual code layer systems.

### **The Merged Lower Order Emotional & Higher Order Vibration Processes**

Transmuted Electro-Chemical Processes (biological and otherworldly) into incorporating timeline & reality field dynamics.  
Transmuted Nervous System Sensations (biological and otherworldly) into incorporating activation & amplification dynamics.

## The CNS-Brain Holographic Overlay System with the inserted regressed genetics and the artificial timelines

The Outer Domain mental field holds the concentric circles, which have been tampered with. They are to be cleared, recreating the basic layers of the Sirian Transformative Mind-field.

## The Perception Levels

## The Clearing of Timelines or Code Streams – the Short Version

When we were about to enter a new cycle in the progressive systems, we did the work of clearing out all energetic and genetic remnants of the past, and of all we had been in that and the previous cycles.

## The Transition of Our Planet into the Original Configuration

## Leaving this Reality?

*The transit platform and the transition area*

*Leaving via the portals in the crystal caves?*

## The Chiasm Now and Onward

*Please notice that the sequences are not correctly illustrated since the slices of reality we are composed of, are in the numbers of infinity.*

*In other words, we can through the chiasm and its perception field:*

- 1) Undo all regressed imprints, fields and consciousness genetics stuck in the older cycles and timelines we have participated in, willingly or unwillingly.
- 2) Undo the genetic regression and restore the template.
- 3) Undo the distortion of the genetics and restore them.
- 4) Develop the correct genetic composition of our bio-field and in this enable us to build more genetics into our physical form.
- 5) Regain conscious access to the other reality zones.
- 6) Undo the regression in our template and the code sequences, separating us from the progressive human worlds, and regain full conscious accessibility.
- 7) Remove all prohibiting technologies, their fields, genetics and energetic to semi-organic parasites.

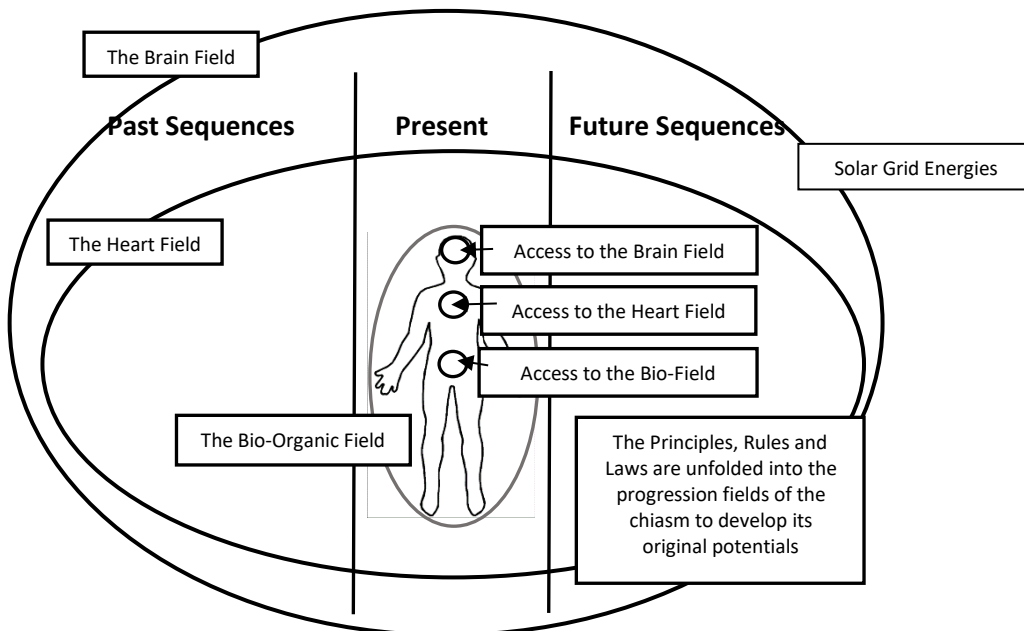

*The goal of reaching higher productivity was the idea behind the chiasm. Through the chiasm, inserted into our transformative energy system, we would be able to detect the failed attempts in the existing life and not having to wait until the completion of the cycle to do the clearing work. Timeline or code stream work is linked to the cycles, the holographic grids and probability fields of all systems.*

# The HAL Academy – The Template Sciences Course 3

## The Universal Construction

## The Progressive Energy System

The human energy system is built up of different fields composed of code sequences, following the code streams, energy units and consciousness units.

*The progressive energy system can be worked with through the access points entering the heart field, the brain field and the bio-organic field after having cleared out and removed the lower order fields. Then the reconstruction work with the vibration and radiation fields can begin. We use the code sequences stored in the template to do that.*

# The HAL Academy – The Template Sciences Course 3

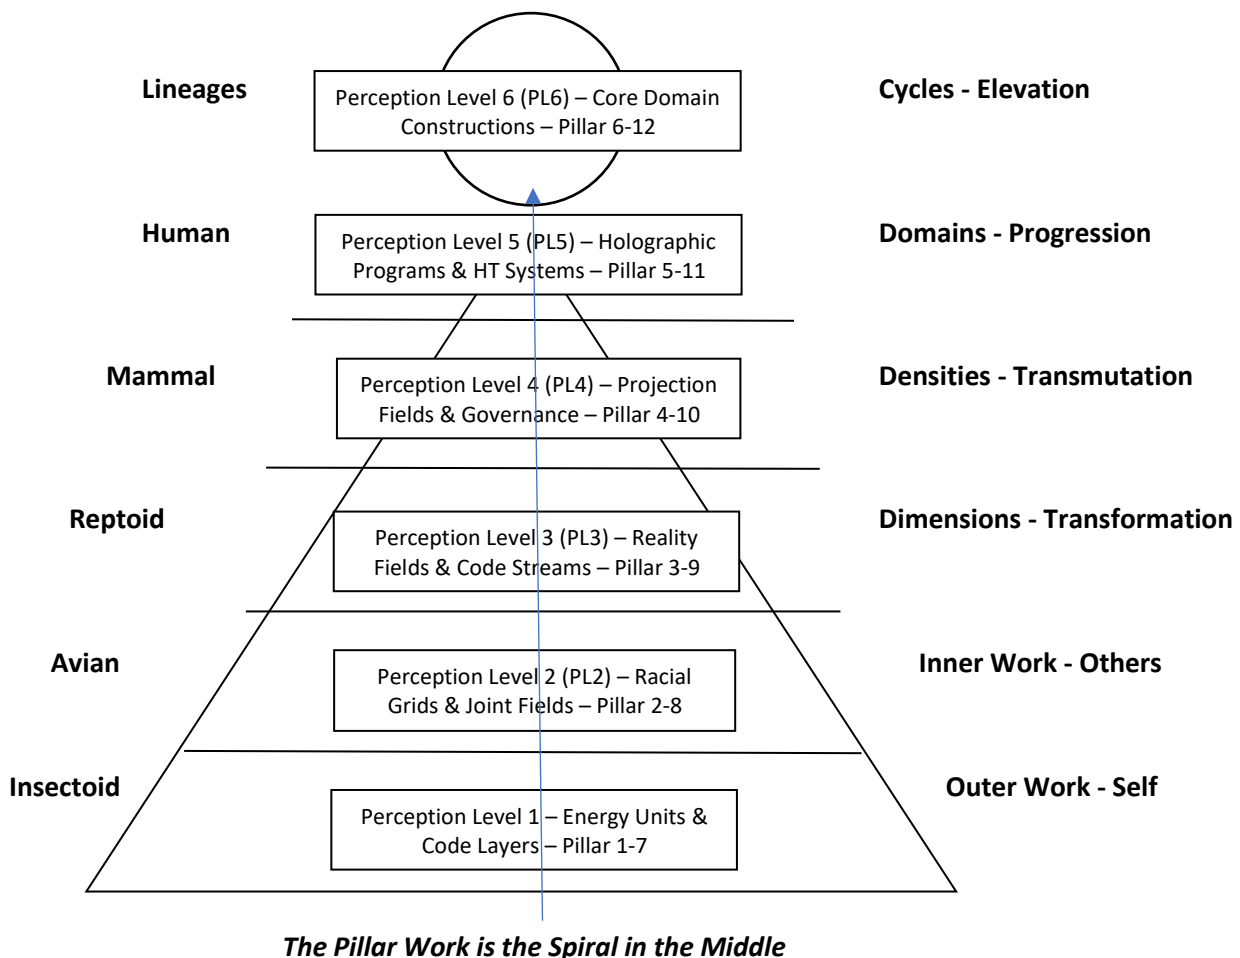

*The conscious and daily awareness process utilizing and following the Principles, the Rules and the Laws will alter the energetic state of the entire energy system, allowing it to reconnect to the template.*

To accomplish the reconstruction work, to be able to enter the new grand cycle, we worked on the different timelines (original code streams) by making our own cross-code stream programs to do so. Travelling on the code streams of the holographic reality network, meant to interact with specific code streams within previous cycles, by incorporating parts of our future self into an older organic version on the chosen code streams and their unfolded reality segment. The goal was to upgrade the individual and racial genetics in the code streams we did not complete acceptably.

*The reason why progressive humans do code stream travel is to clear out all failed interaction potential with the reality field, so we can function properly in all upcoming cycles. It is natural for progressive humans to go back and forth on code streams to alter them in order to become more productive.*

*The Template is Reconstructed via the Principles, the Rules and the Laws*

## The Perception Levels

The old energies and genetics on previous configurations on the different code streams need to be released to enable all to move on. Besides, the artificial timelines continue to exist as long as they contain viable genetics and connects us to the parallel universal matrices under the D13 Collective. Hence, the work of all progressive races, when a new grand cycle is up, is to clear out their genetics on all past code streams to close down the connection points to that cycle.

### The Rules of Engagement – from the HAL Philosophy Book

Present-day humans have been turned into mindless consumers of all reality energies, which were meant to uphold our template and energy system, and turned into polluters of the lifeforce in the racial grids, which was meant to uphold our organic vessel and granting us life.

Thus, part of the progression work is to learn how to multiply the resources of reality, sustain life and how to be around other humans and lifeforms by following the Rules. The processes to learn to utilize the Rules support the recreation of the lower order ego structure *into being able to hold the middle domain energies*.

**Perception Level 3 (PL3) – Reality Fields  
& Code Streams – Pillar 3-9**

**Principle 3 – Rule 3 – Law 3 – Choice 3**

- 3. Focus on What We Want to Amplify.
- 3. Correct Self-Expression.
- 3. The Laws of Creational Projection and Amplification.
- 3. We do not exploit other lifeforms to uphold or sustain our vessels/reality.

The 5 vortices are connected to the OD mental field, once that is transformed, along with the 9 layers of the emotional field, the 9 layers of the MD mind-field begin to take shape, following the energy patterns created via the Rules of Engagement and the knowledge we have gained from the transformation of the old energy units from the previous universal cycles.

# The HAL Academy – The Template Sciences Course 3

## *1. Correct Self-Mastery*

We acknowledge that all is energy, and that energy is interconnected. We are lifeforms with different states of energy. Energy is utilized in our thoughts, our emotions and in the organic processes of the body. We affect other lifeforms with the energies we hold in the template, in the mind-field, the emotional field and the organic field. And lastly, these energies affect the racial grids, polluting the lifeforce. We must educate ourselves to again understand all energy, forces and powers.

## *2. Correct Self-Responsibility*

In acknowledging, we affect everything by what we are energetically, be it humans, animals, plants and the world, we live in, we must take responsibility for our energetic state. We agree to take the energetic challenge of becoming harmless, which means not to directly harm, disrupt or digress whatever we interfere with. Unless, of course, the whatever attacks us; then we are to defend ourselves appropriately.

In this, we accept that all disruptive belief systems and emotional patterns we might have, from this and previous lives, must be cleared and managed in the accurate ways, along with the distorted cellular construction, we call our body.

## *3. Correct Self-Expression*

Following the understanding of the energetic consequences of how our ways and behavior affect other people, we must learn to express our ego, and its energetic emissions, in productive and amplificative ways for all implicated, leading to the highest good for all.

This means to energetically and genetically perceive, assess and recognize whatever is in front of us, and from this information act accordingly in ways, which will lead to the highest standards and the highest progression rate for all implicated. Here, naturally following the standards, ideas and ideologies of the progressive systems.

## *4. Correct Self-Containment*

Following the first 3 Rules, we understand that we are responsible for not affecting others with the distorted energies and the genetics, we know, we hold in our template and energy system. We are to learn to contain these levels, until we have found ways to clear them.

Thus, we are observant of our behavior and energetic emissions around other lifeforms. We do whatever it takes, to ensure we do not give sustenance to the infected genetics and distorted energies in our energy system or template. We clear all that we can, all the time until we get it all. We make sure, we do not spread the infected genetics and energies into our surroundings. And we make sure, we do not set in motion the projective dynamics, amplifying the unwarranted levels in us and others.

5. Correct Team Awareness.

6. Correct Team Responsibility.

7. Correct Team Work in Projects.

8. Correct Progression Goals for the Project or Community, as a Team.

9. Correct Administration of all Inner Energies and Reality Resources.

10. Correct Management of all Outer Energies and Reality Resources.

11. Correct Deployment in Activity of Manifestation.

12. Correct Intentions of all Expected Outcome.

# The HAL Academy – The Template Sciences Course 3

## Principles 10-12

### 10. *The Correct Dignity*

Only if there is dignity in our original personality structure, can the progressive energies unfold into this vessel. The dignity drives us to, at all times, provide the most excellent results for the highest good of the many, for the reality and for all other lifeforms as well. This was developed in the 3<sup>rd</sup> evolutionary Cycle under the D13 Collective, as we began the integration into the *manifested* planes of existence, using the energies of the previous universal cycle.

### 11. *The Correct Honor*

Honor was part of the ancient realities. It was developed in the 2<sup>nd</sup> evolutionary cycle under the D14 Collective, outside the pillar project, as we began the integration into the *energetic* planes of existence of this universal cycle.

### 12. *The Correct Will*

Will was part of the ancient realities. It was developed in the 1<sup>st</sup> evolutionary cycle as part of the D15 Collective, outside the pillar project, as we began the integration into the *consciousness* planes of existence of this universal cycle.

5. Inner Knowledge is the Correct Teacher.

5. Correct Team Awareness.

5. The Law of Higher and Lower Order Sciences.

5. We do not take anything from others to support our progression.

# The HAL Academy – The Template Sciences Course 3

Our energy system is capable of detecting the changes in the resonance grids of our system. We know how to initiate the correct preparations for what is coming. All we have to do is to listen to our inner information and shed off everything that prevents us from doing the needed *transition* and *transformation* work. We must arrange our lives so we can follow the changes and learn how to *transcend* the local convulsions in the areas we live in, the energetic instability in other humans and the changes in our surroundings.

Our template can similarly initiate changes, because all advanced information systems have encoded a form of *interactive intelligence* to corroborate with its owner. It is part of the template program and code sheets, we made, so we always would get back to progress in the direction of our goals, if we got stuck or lost our way.

## Using Self-Scan and Code-Repair in the Work

*Step 1: The ability to self-scan and code-repair the energy fields to clear out code systems of a lower order*

- I. What is perceived from a normal awareness level?
- II. What is perceived from a double awareness level?
- III. What is the energetic information behind from a higher order awareness level?

*Step 2: The ability to achieve energetic transformation in the two energy systems*

Firstly, answer what you think it means to achieve energetic transformation of the two energy systems.....

- I. From a normal awareness level?
- II. From a double awareness level?
- III. From a higher order awareness level?

Then ponder upon how you can achieve this energetic transformation in your daily energy work.

*Step 3: The ability to achieve a higher vibrational-radiation states in the brain and heart fields*

Firstly, answer what you think it means to have a higher vibrational or radiation states in the two fields.....

- I. From a normal awareness level?
- II. From a double awareness level?
- III. From a higher order awareness level?
