

The HAL Academy – The IAT and the Quadrants (Course 4)

Overview of the Advanced Clearing Work of the Inserted Alien Technology (Course 4)

We continue the work with the inserted alien technologies, the three quadrants, the alien genetics and TEGs. Whether these technologies and their genetics are the result of wrongful use of energy, or have been inserted by the Colonizing races, the work remains the same. These genetics and technologies must be removed and evaporated for us to be able to return to the original DE1 sections of our reality field.

The HAL Transition Science Courses and the other courses of the Advanced Clearing Work Courses must have been completed, since they provide the background for this course.

Included in the course material are 10 videos, divided into different groupings of the material, explaining the text material in details, as well as exemplification of energy work, and other information layers that are important for the work. The course material will be sent to you in the welcome email, along with access to the private group on Vimeo with the videos.

The Advanced Clearing Work of the IAT and the Quadrants Course 4

I use the illustrations from the course Advanced Work with the Emotional Field, Course 3 and Terralogy, and although the illustrations are the same, the explanations will be taken to the next and final level before we move into the advanced work with the artificial reality programs, timelines and alien genetics, completed in this course 4. In the Advanced Clearing Work Courses, we take the theories into practical use to enable us to develop our energy system to meet up with the changes and challenges of the new reality.

The duration of the videos is between 35-60 min each.
