## **The HAL Forerunner for the 2025 Timelines – Group Class 1 from September to November 2022**

The HAL 2025 Timeline Forerunner Group Class 1 entails text, podcasts and 6 lectures with discussions and Q&As, done in a private Skype group call. The text material is explained in the podcasts, uploaded into a private group on Vimeo, along with other information to cover the trends and patterns in Autumn 2022.

*Max 13 students.*

### **Background for the HAL 2025 Forerunner Class 1**

Are we Heading for a Psychic-Energetic Paradigm Shift in the Collective Fields of Humanity?

And if so, which psychic-energetic skills are required to be a 2025 timeline forerunner?

*Needed Skillsets of a 2025 Timeline Forerunner:*

- Mental and emotional abilities to adjust to changes, following the 5<sup>th</sup> cycle dynamics
- High-functionality emotionally, mentally and physically, to address and cope with 5<sup>th</sup> cycle challenges
- Resilience, and skills to develop resilience, in times of energetic resistance and counter energies
- A flexible personality structure needed to develop the transformation and transmutation skills
- Ability to read and understand energetic trends and energetic patterns, both locally and globally
- Ability to decode information streams correctly, both locally and globally
- Timeline alteration ability and the ability to jump timelines, both locally and globally

*The planetary activation and clean-up stages, that are running until 2034, will teach us more skills needed to do the overall transition into the higher dimensional realities, but we also need to grasp the other changes our world is heading towards within the political, financial and environmental areas of our local and global economy. The signs are weak at the present, but with the abilities to read the significance of the minor trends and the patterns of energy, the signs are indicating, the timeline decoding will show the trends and how they are moving towards a huge shift in the ways our world works.*

In the HAL 2025 Timeline Forerunner material, we will look into the upcoming changes in the ways we live and the ways we perceive reality, and what we need to adjust to on the 2025 timelines, focused around the 5<sup>th</sup> cycle. The new meta-normal for humans, ready to enter the 5<sup>th</sup> cycle and its timelines, will begin its kick-off in 2022 and run until December 2025. We have had glimpses of the trends and dynamics the last three years. These have been a type of test run. We are in for a meta-shift of proportions; we have not grasped the implications of yet.

It would be easy if the 2025 timelines would unfold in similar ways around the world, but that is not the case. Our world is divided into different sectors, and each sector and its population, will choose the means of change they see fit for their country, nation or territory. So, we are in for different changes, challenges and different sets of skills that need to be developed. These skills are part of the understanding of how to read energetic trends and patterns. The energetic trends and patterns of where we live.

It is likewise prudent not to rely on “history” or “it has always been like that.” For centuries people have said; “history shows us” or “is always goes this way, in times like this”, and most of the times it is a repeat, but sometimes it is a synergetic leap and there, history does not play any role at all, because a synergetic leap is about changing the collective field of energy and consciousness into a new state, with new field probabilities and possibilities. And this is where we are now.

The year to begin the great leap in energy and consciousness is set for 2025, as the different factions play in their future timelines into our planetary networks and racial gridworks to counteract the grand transition cycle, with the goals of leading humanity into the futures of their liking, and not what we were supposed to be doing now, getting ready to reunite with our original energy system and higher order consciousness structure.

## **So, what can we do? What should we do to prepare for this?**

This group meetups are done over Skype, and here we investigate the options and possibilities, we must have to match the requirements of the 2025 timelines and how to implement the options into an active lifestyle, based upon higher awareness capacities. We look into what we need to do to develop these, be it the psychic-energetic skills of the perception field, compared to the psychic-somatic level of the vibrational field, or the abilities to read the energetic trends and patterns.

## **The Course Material**

In the 6 lectures, we discuss the information provided in the course material, which will add to the text and podcasts. Therefore, some sort of preparation before each meetup is expected. Other information will be discussed as well. The Q&As are ONLY for the 2025 Forerunner material – nothing else.

### *What I Expect of You:*

1. **Some degree of knowledge of MIC, SAC and Galactic History either from my material or from other/own sources**, although we will NOT discuss this as such, ONLY have it as background information because we are to continue what was begun in the 2000-2017 SAC and transfer, adapt and further develop the knowledge and energy work, we have learned from the SAC.
2. **Some understanding of timeline work, how to clear and adapt timelines.** More advanced skillsets and understanding of the timeline work can be learned in the HAL Progression Work Courses.
3. **Years of work with the personality matrix, in either inner work, psychological work or meditation.**
4. **Personal experiences from inter-, intra- and meta-dimensional levels of our reality.**
5. **Basic integrated healthy lifestyle with some sort of daily routine of exercise, fully plant-based diet, energy work and self-healing done to maintain and develop your higher order capacities.**

*The HAL Academy Courses are to be seen as support to the HAL 2025 Timeline Forerunner Group Class 1, which means that you either have done most of them already or might find it useful to do them while doing the HAL 2025 Timeline Forerunner Group Class 1.*

## **The 6 Skype Group Meetups at 8pm Danish time – on Sundays**

We meet up over Skype in private group calls from September to November 2022 at 8pm Danish time on Sundays, and discuss the material from a theoretical and practical point of view.

- Each meetup has the duration of 1-2½ hour, all depending on the activity of the group.
- The quality of the group calls depends on the group entirely, since it is up to the group members to present thoughts and ideas on the information provided in the course material. Not just in the form of questions, but in the form of thoughts derived from working with the material.
- *To ensure the highest energy in the call, it will not be possible to discuss personal issues or relate to experiences with other people. Talking about other people invite whatever they hold to the meetup, due to the power of the group dynamics, and talking about personal issues will open up your field and merge it into the group. Instead, I recommend doing HAL Sessions with me privately.*
