Overview of NRC Stargate Basics Course

In this course, the focus is on the challenges the new reality field configuration, following the opening of the original DE1 Bridges and Stargates. Reality fields are built of radiation and vibration energies. These two forms of energy are part of our energy system as well. Thus, our energy systems correlate to the reality fields, affecting these and are being affected by them too. But what does that really mean?

Included in the course material are 11 videos/podcasts, text material, and extra podcasts from YouTube. The material will be sent to you in the welcome email, along with access to the private Vimeo Group holding the videos. The duration of all videos is between 30-55 min each.
