### **Overview of The Skillsets of a Chaos Pilot Course 2**

In this online course, we explore the psychology of a chaos pilot, learning to navigate in the alternate reality dynamics, the alien approaches to us and the advanced trade systems of the colonizing as well as the incoming races. The idea is to generate an overview of some of the obstacles we meet in the work with the alternate reality along with generating some frames of reference for the challenges and the developmental dynamics a chaos pilot has to deal with. Along with the Changemaker Course 1, this course 2 lays the foundation for the systemic-dynamic business model, where we continue the work to add the alternate reality perception into our in-base-program business models.

Included in the course material are 10 videos/podcasts plus extras from the HAL Project YouTube Channel. The course material will be sent to you in the welcome email, along with access to the private Vimeo Group holding the videos. The duration of all videos is between 30-55 min each.
